# 1. Geographic area

- Sheepskin coats have their Romanian origin

## 2. Data sheet

- Today this craftsmanship is rarely found, and coats are used primarily in folk costumes.
- It's quite rigid and takes a long time to adapt and be comfortable until you get it a little flexible and you manage to move inside your jacket comfortably

# 3. History

- The traditional craftsmanship of Romanian sheepskin vests dates back to ancient times.
- The early occupation of the furriers is attested in funerary monuments of the Geto-Daciano period

## 4. materials

- The only thing that you need to create these incredible coats are wool and specialized machinery

## 5. Process

- Performs cutting operations with the loose animal, got wich the seated animal is located and the shearer operates from behind it. It begins first through the stomach area and ends through the head to get the wool safely
