- 2.** Process and Technique
- 3.** Used Materials
- 4.** More Media(Videos, Photos and News...)

# 1. Location and History :

- The crown as a word has come to symbolize the governing body and the top of the social hierarchies.
- Represents leadership, divinity, legitimacy, honor and glory many people think of the crown shaped ring or tiaras, but there are many different styles of crowns around the world and in all historical periods.

## 2. Process and Technique :

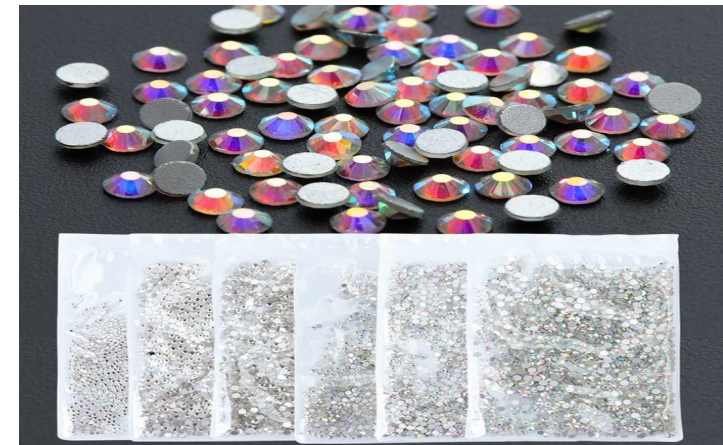

- The mold is closed, molten wax is introduced, once cold, it will lead to the model of the piece you want to create.
- The molten mixture is poured into an ingot to obtain a silver bar.
- This bar is passed through a succession of holes of different sizes, increasingly thin, to make the thread very thin .

### 3. Used Materials :

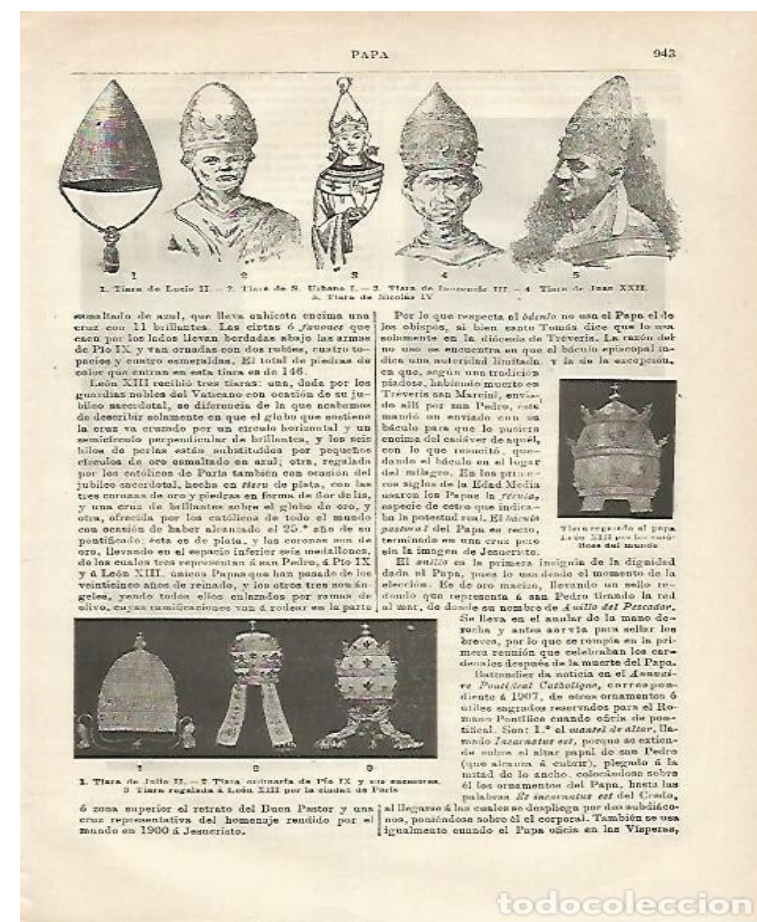

- Raw materials for a tiara begin with metal wire. Silver and gold are the main options.
- Square wire ( box-shaped when cut) , is also preferred to form the tiara band and its vertical designs, although round, semicircular, flat, beaded and other wire shapes may be preferred ( or combined ) , For different designs .
