Every night the moon starts a fire  
While most of us just chase down a dream  
That we just can't touch  
I wonder if love is what we make with our  
Own two hands  
We get into trouble and lose our minds  
Why why why why why

---

Way up high  
Bluebirds fly  
Someday, I wish upon the stars  
Ooh, ooooo  
Why why why why why why  
Generation why  
To catch up with the sun, but it's sinking  
You better lose yourself in the music  
Now hush, little baby, don't you cry  
Na nana naana nanna boy you make me dance  
Good night, sleep tight

---

And it's exactly why

You could be the greatest

It cuts you deep and leaves a scar

It's not a silly little moment

It took a while to synchronize

Every night the moon starts a fire

When in the end you were everything

Step by step

I won't let you go alone
