

My School

Washington Academy is a values-based school. Values are rules we all follow like, respect unity, grand's hip and alot more. We have a values packet and each class takes it in turns to have it (to a class ~~not~~ give it to a class member when I was in year 3 I got the values packet for patience from my teacher Mrs. O'Neill, I was ecstatic.

Washington Academy is very lucky because it has a garden, four playgrounds, a vegetable garden and great houses, which we use for alot of cooking - healthy of course! We also have a pizza oven. I tried the pizza it is delicious.

We have 11 classes, 11 teachers and 6 support staff. We also have 1 hour of activities called, Enrichment times which have activities like drama, badminton, and much more. I'm in drama!

At school we do lots of biking, we have some people from a group called synergy who come every Friday morning. I love going biking. Last month (October 2016) we did a Birkability, if you don't know what that is we were we have 2 days of biking, the instructors that I had were called Val and Mike.

We keep all our belongings in lockers we have 3 different colours, red, green and yellow last year had green this year I have red.
