

# Storytelling “Colour Diversity of Autumn”

Scuola secondaria G. Borsi Livorno

Walking in the park we were thinking about something special to do

What about going to  
explore our city?

We need to go across some barriers

What about going....?

by boat?

We can swim,  
even with the imagination!

We can ride a bike!  
I mean...

Maybe these work better!

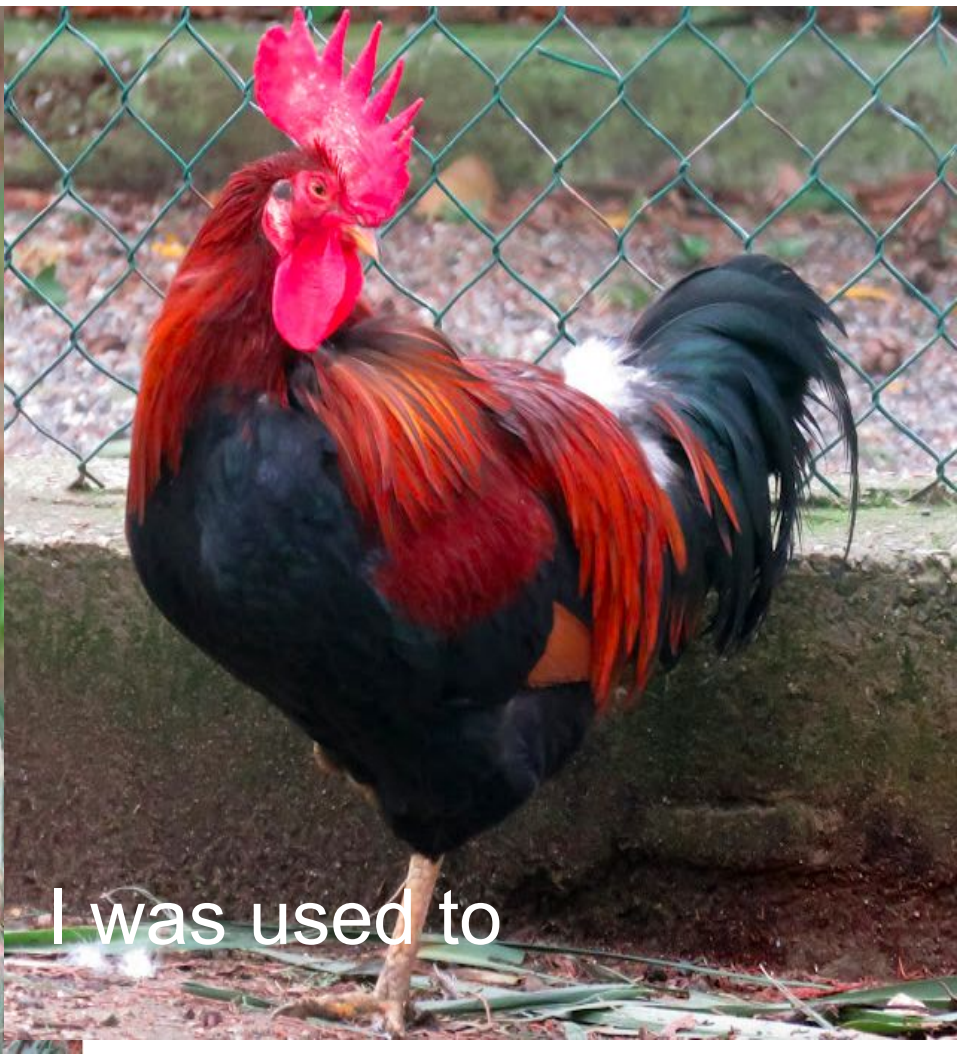

or we can fly!

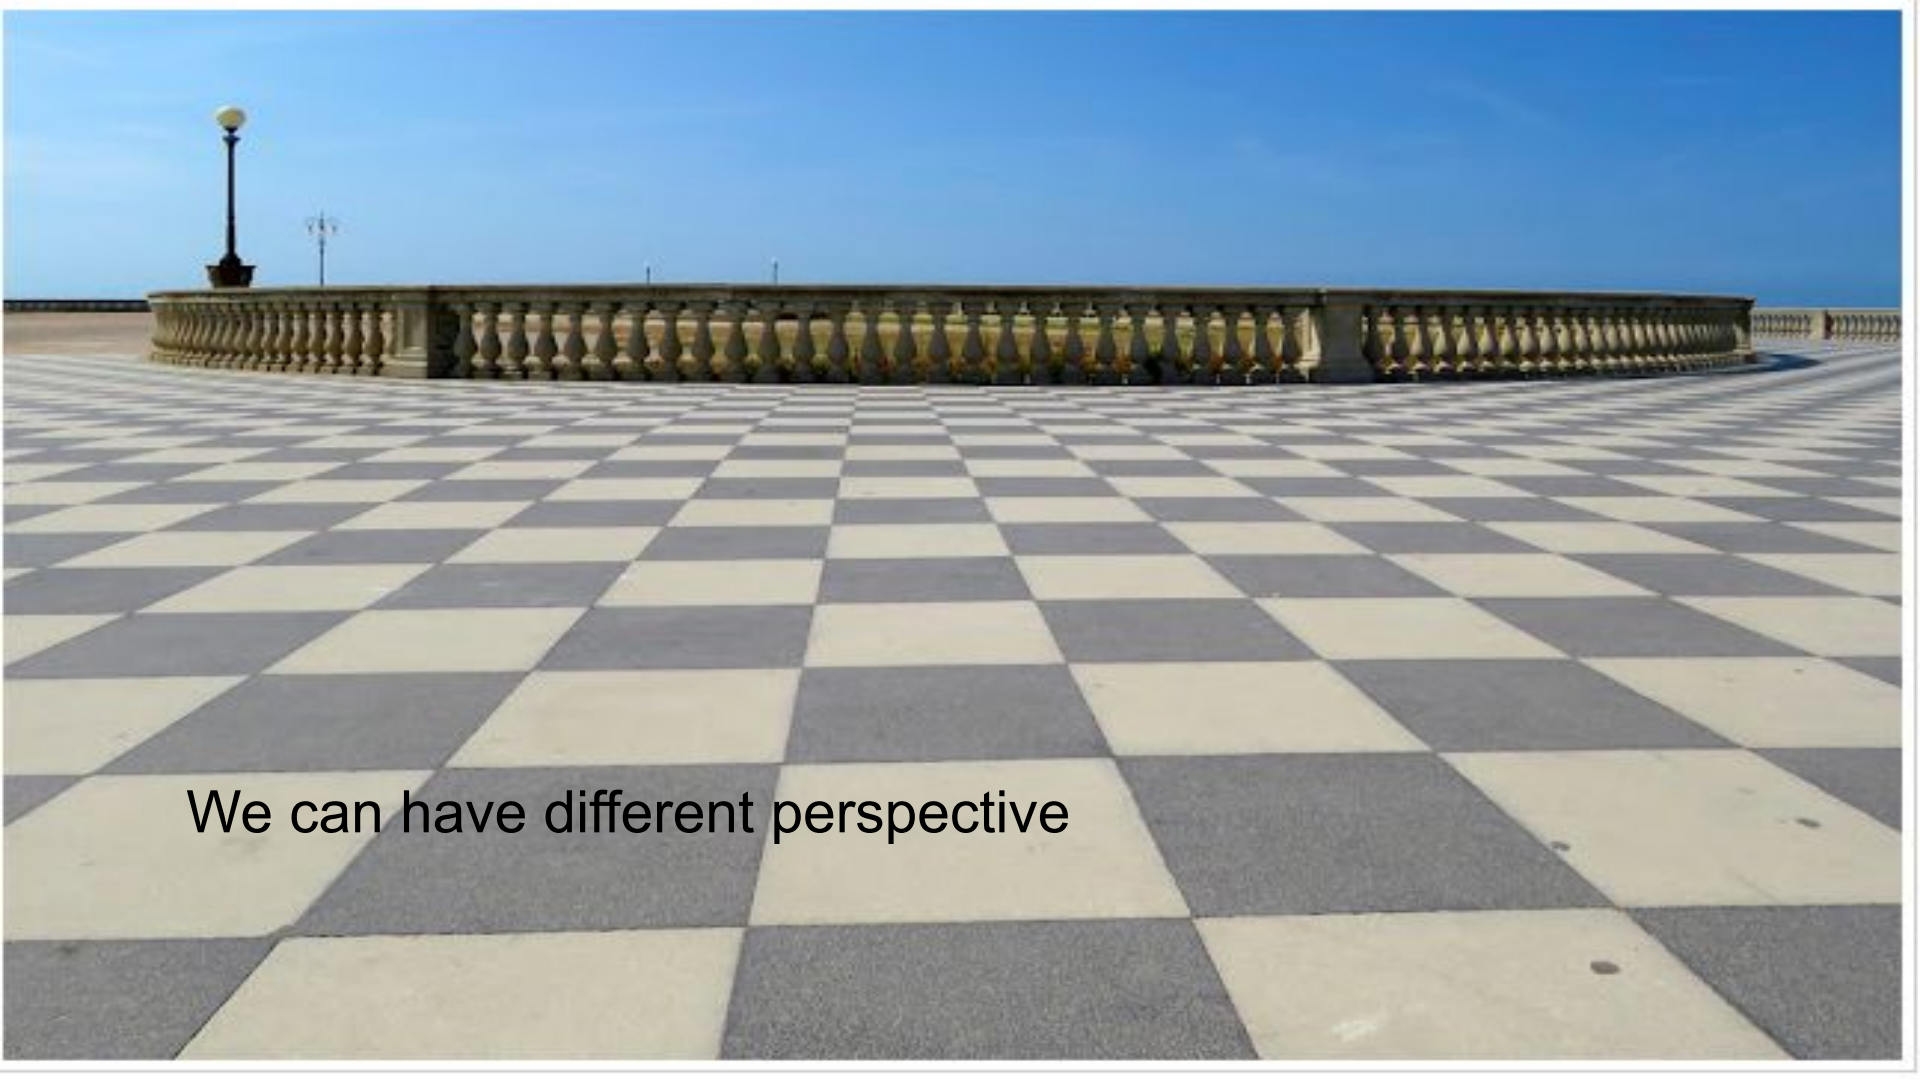

I can

I was used to

We can have different perspective

We can see up bottom or bottom up

but always enjoy the colourful life

our pieces of art

and love!

Thanks to
