

Our trip to Scotland – host school Craigclowan Preparatory School, Perth, UK

To beautiful Perth, former capital of Scotland, UK, on the banks of the River Tay, travel five students of Aristotelio College, Thessaloniki, Greece, Ismini Lagoutari, Iliana Kyzaki, Christine Kefou, Joanne Zidrou and George Felekis, and two teachers, Ms Georgia Safouri and Ms Despina Filippidou, in order to exhibit their Best Inventions in the “**European Youth Invention Ideas Fayre**” at the Royal George Hotel on 5<sup>th</sup> June 2018. Learning, teaching and training activity; participants, students from Greece, Romania, France, and Italy who are hosted by Scottish families, teachers, and of course our Scottish partners.

The chronicle

June 4: Day 1

The Greek team meets the partner students and takes a tour round the amazing **Craigclowan Preparatory School**, located in beautiful natural surroundings. We are guided round the city of **Perth**, former capital of Scotland, at St John’s church, the Albert monument, the city Court, the Fair Maid’s house and Lindores distillery. Different culture and temperament, yet same people.

### June 6: Day 3

Travel to **Loch Ness**, the legendary lake in the **Scottish Highlands**.

We admire the natural wonders of the world's most famous lake and the awesome view from famous **Urquhart Castle**, and even though we fail to see Nessie, it is yet an experience to remember!

### June 7: Day 4

Visit **Edinburgh**, the capital of Scotland, which is impressive due to the location, culture, natural beauty and sights, esp. the **Old Town** with its medieval architecture. Tour round **Edinburgh Castle**, a strong fortress which dates back to the 12<sup>th</sup> century. Built on the highest spot of the city, it is reasonably considered the landmark of the capital of Scotland.

### June 8: Day 5

The **Best White Water Rafting** experience down the River Tummel! We paddle forwards & backwards/ hold on/ lean in/ get down and ... jump into the water. One of the highlights of this trip! Thank you, Nae Limits!

A journey to inventiveness, engineering, manufacturing,  
3D printing and robotics

The Grand Day  
June 5

The European Youth Invention Ideas Fayre at the Royal George Hotel – We exhibit our Inventions, Dress it Up!, Street Food & House, Kids Ambulance, Driving with Safety and Eco Village in front of the Eureka! partners and citizens of Perth. The Provost of Perth, Mr Dennis Melloy, opens the exhibition, highlights the importance of participating in international partnerships and

Explaining to partners and visitors the inventions students thought of and implemented. Using their imaginative skills and good knowledge of English, the students communicate to the people who are present the process they followed from the conception of the idea to its materialization. These are the Greek hard-working students from **Aristotelio College**, who have managed to become the next generation of Inventors!

The end of the journey into the Scottish culture, mountainous countryside, medieval architecture and gothic revival, brings us closer to the closure of the Erasmus journey as a whole... A big thank you to the Scottish families who were warm and looked after our students in the best possible way, and of course Craigclowan School and rest of partners who made this week and this project so special! It's been a journey we'll never forget!
