

In the application form was suggested the movie titled "Milou en Mai", from Louis Malle, (A 37 activity) but we were not able to find it, so we chose the movie "Munich".

It is about the conflict between Israelis and Palestinians, so, this movie could be considered as inappropriate. But we have chosen it because:

- 1.- The event that triggered the facts told in the movie happened in the heart of Europe: in Munich.
- 2.- The most of the movie goes by different European countries
- 3.- The most of Jewish people who made up the modern state of Israel came from Europe
- 4.- The reason of this immigration was the persecution they suffered in Europe by the Nazi regime
- 5.- This conflict has influenced in the European foreign policy.
