

CHAINED READING ACTIVITY

METHODOLOGY AND PROCESS OF WORK

1. We decided to write a travelling book working cooperatively
2. Every country wrote its part choosing a group of pupils and then passed it to another country until we finished our book, following an alphabetical order.
3. A printed book and a digital book were created.
4. We decided to read our part in relation to our travelling book except Lithuania that made a short presentation at the beginning as this country only participates in our project with kindergarden pupils.
5. We recorded our readings.
6. Spain as a coordinator country joined all the countries contributions creating a video as a final product.
7. The video was posted on e-twinning and shared on facebook and our social networks due it is a way to disseminate this work
