

## FINAL REPORT - TEAM E

Students /Country	Group of companies you have invested	Number of companies you have invested (from 1 to 10)	Number of transactions you have carried out	The most profitable investment	The least profitable investment	Reasons for their investment strategy (if you have invested the same number of times each week or not, if you have invested more or less in different weeks, etc)
Simone/Italy	Group 4	5	12	Münchener Ruck AG	Deutsche Boerse AG	i was checking every day if my companies were growing and if they were growing or going down, i decided if it was the moment or not to invest in these companies.
Lorens/Latvia	Group 2	5	12	Vonovia	Ahold Delhaize	The main strategy was that i check everyday in the morning and I wrote on my word document file how much was the \$ worth for each company so i'd know if it was going up or down.
Defne/Turkey	Group 5	6	12	Asml Adr	Amadeus	To get the best deal from a company, I would regularly check each company's share price throughout the week. After each check, I would try to analyze the slopes and make a decision about whether or not I would buy shares with those prices; if I don't buy

						at that moment, I would definitely buy after the second or the third check.
Carmen/Spain	Group 1	3	12	Louis Vuitton	Daimler	I was checking every day and making screenshots, I did this strategie most of the weeks except the first week because I forgot it
Panagiotis Kapourelakos/Greece	Group 3	6	18	Sanofi SA	Philips	i was just checking it everyday and when i felt that it was the right time to buy or sell stocks i did what was best for me based on the situation and based on what i was feeling like.

**Was it better or worse to invest in many companies or in just a few of them?**

Simone (Italy) : *"in my opinion it was better to invest in just few companies because if i invested in many companies i lost too much money."*

Carmen (Spain) : *"In my opinion it was better in a few because I think that with a lot of companies you can lose more money."*

Defne (Turkey) : *"I personally believe that investing in many companies is better because of having more chances in gaining money from them."*

Panagiotis (Greece): *"In my opinion, it was better to invest in many companies because i had more options."*

Lorens (Latvia): *"Well in my opinion, just a few, and just pay attention to fewer whether it had a peak or hit a low."*

**Was it better or worse to do many transactions or just a few?**

Simone (Italy) : *"Depends on the constancy of the companies."*

Carmen (Spain) : *"Depends on the reputation of the companie"*

Defne (Turkey): *"It really depends on how much profit you're in; but generally speaking, I think it's better to make more transactions just to be safe."*

Panagiotis Greece: *"Depends on the consistency of every company and it's stocks."*

Lorens (Latvia): *"Depends, if you were to wait for a big peak, i'd say just a few is fine, but if you constant want to go up or down then i would say many."*

**Was any of the weeks particularly good or bad for investment?**

Simone (Italy) : *"Yes, the last week that I invested, lot of companies was growing, so it was the best moment and I did some profitable investments "*

Carmen (Spain) : *Yes, with Adidas most of the weeks were bad for investment because the prices were so high and sells very lows*

Defne (Turkey) : *"In the second and the third weeks, my companies were doing better than the other weeks; so I'd say these two were particularly good."*

Panagiotis (Greece): *Yes, the second week of the January was the best in my opinion, I won a lot of money.*

Lorens (Latvia): *Well the weekends were always phenomenon in financial markets, and there were few weeks were it was really bad and nothing went up or down.*

**What do you think about this activity?**

Simone (Italy) : *"It was very enjoyable, and very important for who in the future want to become a businessman or an investor."*

Carmen (Spain): *"Well in my opinion I think it was a good activity to learn how to distribute money and learn to not waste all your money. "*

Defne (Turkey) : *"I'm genuinely happy that I participated. I learned a lot on economics, on how to gain money by buying and selling shares; and also I met different people from four different countries, which was quite an excitement for me."*

Panagiotis (Greece) : *"It was great, i had fun and it was a different experience. I think i learned a lot and now i have some experience in economics!!"*

Lorens (Latvia) : *" I say for me it was really good experience, because I never had done like such stocks and if I were to do it with real money, I would not be good at it at start."*
