VINCI - construction's business model is based on three complementary pillars to provide long-term support for customers on projects spanning a wide spectrum of technical features, scales and geographies. VINCI Construction can work at all stages of the project life cycle, from financing to design, construction and maintenance, and delivers comprehensive solutions and services. VINCI creates long-term value for its clients, shareholders, employees and partners, and shares the benefits of its performance with a large number of internal and external stakeholders in all the regions where the group operates.
