LAND ART

14TH PRIMARY SCHOOL OF ILION, GREECE

In the framework of our e-Twinning project and in the Fine Arts subject our pupils of 5th grade learned about Land Art and made their creations.

They worked in small groups in the School garden and here we present the results of their collaboration!

14TH PRIMARY SCHOOL OF ILION, GREECE

Congratulations to all the pupils that participated in the eTwinning project!

They also, exchanged educational materials with their Schoolmates from other Greek Schools , from Spain and Italy and due to this purpose we created a web page in twin-space.
