INFO PROJET

A mascot is sent by a class to conduct an investigation of students from another country (icebreaker activity in the form of games learning apps), then widens his scope to the class space, the city and the country. Finally, the students will prepare together during a "live event" the international event "La Grande Lessive®", which is an ephemeral exhibition of drawings around the world on a theme common to all. All surveys and reports in different countries will be highlighted in a digital magazine.

FRANCE

We went to the library. We did a reading of a tale of Turkish origin: Mister Corbeau. Then we did an art activity called marbled paint. Karagöz told us that it was a well-known Turkish art. Since chemicals can not be used, shaving foam has been used.

Marble painting for children

MARBLE PAINTING, how? You have to put shaving foam in a container and paint all colors. Then, with a spatula, mix gently while making waves. Trim the paper and scrape it. Finally, let it dry. Colors are mixing and it is beautiful!

An old raven shows recognition to a shepherd, when the latter takes away a thorn from his paw. After this gesture, the bird will allow the shepherd to pursue his dreams: for the thorn, a candle; for the candle, a cow, for the cow ... Turkish folk tale, enriched in its structure with elements of other cultures.
