How much do you know about your body? Three of these sentences are true. Which are they?

- 1 Your ears can't hear anything when you are asleep.
- 2 You use hundreds of muscles when you walk.
- 3 About 90 per cent of your body is water.
- 4 The outside of your skin is made of dead cells.
- 5 You digest food in your liver.
- 6 It is possible for two people to have the same genes.
- 7 Red blood cells kill viruses and white blood cells carry oxygen.
