

# EVALUATION in international groups

- We liked:

Proakademia, afternoon activities, ice hockey, building the toys,  
Emilia V & Emma presentations, well planned, food

- We liked the least:

the days were a bit long

- Suggestions:

not too many presentations  
presentations related to topics  
more free time 😊

### Positive things:

- Families' hospitality
- Funny free time (ice swimming)
- Classes about entrepreneurship

~~Other activities~~

- New friendships
- Party

### Negative things:

- we should have spent more time all ~~together~~ together and not divided in ~~two~~ groups
- we should have had more practical activities instead of theoretical ones
- Know it's important to have a definite program but I think it should have been more flexible
- We should have had more trips in buses or similar things, I think that nature is the thing for which Finland is best known
