

# 10 ways of cutting greenhouses gas emissions

## At home

1. We are recycling.
2. We using ecological means of transport (Bike, train)
3. We are planting seasonal food in backyard gardens

## At school

1. We are recycling
2. We are planting trees
3. We are applying filters to chimneys
- 4.

Olacper Szyszka  
(Poland)

# My Aim:

1. unplug my phone charger.
2. Turn off the lights when no one is in the room.
3. Turn off electrical devices when no in use.
4. Put rugs or warmer materials on hard floors.
5. Spend less time in the shower.

turn off computers

off light,  
~~shortly~~ shower  
short

We are recycling  
We are changing light bulb  
to energy-saving ones.  
We are turning off electricity  
appliances

Home

# HOME

exchange  
the old bulbs  
(LED bulbs)

switch off the lights

eat no meat

spend less time in front  
of the tv

separate rubbish

donate  
old clothes

close the windows  
during the heating  
system is working

don't use  
a hair dryer

turn  
power strip  
off

turn off  
the water during  
brushing your teeth

cook together  
(less energy  
consumption)

take shorter  
showers

buy recycled  
clothes

• have to do

My carbon footprint → 95%

Food-30%

home-18%

Travel-29%

stuff-23%

H O M E ☺

unplug your  
charger when  
not charging  
your phone!

Use power strips

Switch electronics off

Shower in a short time

Close doors

I already ...

- turn off heat when windows are opened
- turn off the light when leaving room
- separate rubbish

Eat less meat

Use more paper → less plastic

Ways to reduce our carbon

Footprint at home:

- Recycling paper and plastics.
- Turning off the lights when we are out of the room.
- Having a shower instead of a bath
- Using sun light instead of switching on the lights
- Using a laptop instead of a desktop.
- Buying local food

HOME!!!

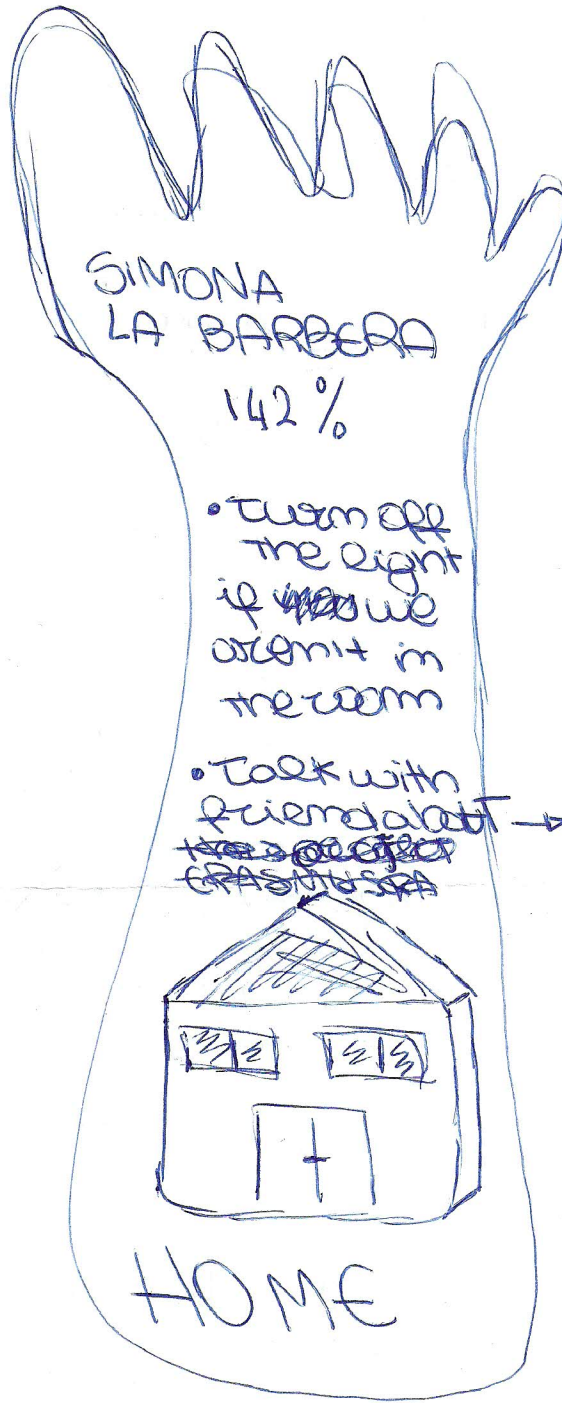

## Ways to reduce own carbon footprint:

- Recycling paper and plastics.
- Turning off the lights when we are out of the room.
- Using sun light instead of light bulbs.
- Having a shower instead of a bath.

AT HOME

la Spia

# At home

- \* **Unplug** phone chargers
- \* **Use** the hairdryer less
- \* **Recycle** everything
- \* **Re-use** scrap paper
- \* take shorter showers
- \* Take advantage of all the **sun light** we have.
- \* Eat more **fruit**

María Ramirez Rodriguez

# FOOTPRINT

AT

HOME

I can...

- ... use variable power
- ... use renewable energy resources
- ... use less oven and microwave

HOME

## My Pledge

Eat less ~~red~~ Red  
meat

Turn more lights off

Turn plugs off

HOME

Souma

fly less

eat local food

ride bike more less bus

buy less clothes  
(as new ones)

Off light energy bulb  
recycling  
conserve water  
attach the charger  
do not bathe long  
planting seasonal food in backyard garden  
reduce temperature in fridges  
in fridges

# CO<sub>2</sub> Footprint

Alicia Moreno  
(Spain)

## Things I should do

(To reduce it)

- Take shorter showers
- Recycle
- Search a renewable energy provider and use it, for example Zencer.
- Install solar panels
- Buy local food (not imported)

Jehanne

# Carbon footprint

What I should do:

Take  
shorter  
showers.

Switch the  
lights off  
when I'm  
not in the  
room.

Unplug  
the  
charger.

Use less  
electricity.

Use more  
public  
transporters.

Nicolo

Get to places by using  
public means of  
transport or going  
by walk ;

Use cold water instead  
of hot one ;

Switch ~~the~~ lights off  
when leaving a room ,

Use electrodomestics less  
that you can ;

Use warmer clothes instead  
of heating your home

## My Pledge:

- Reduce the use of hair straighteners and curlers
- take shorter showers
- Don't charge your phone overnight

@ HOME

Anna

Home 184 %

- to use less public means and walk more
- Switch lights off when I leave a room
- to use less electronic  
stic

School 485 %

- recycle paper in classroom

unplugging  
electronics

eating less  
meat

AT HOME

taking shorter  
showers

recycle old  
clothes

# Carbon footprint

Things I already do

and things I ~~now~~ should do at home

## I do...

Turn the lights  
off when I don't  
need them

Unplug the charger

## I should do..

take a shorter shower

Don't load things if  
they already have  
a power

Recycle more

# My aims:
