

Marta Pinja

SPAIN

## Evaluation:

⊕ This week here has been very fun. I loved all the places we have visited like museums and such. The host families have been lovely to us and very welcoming. The free time was great, it wasn't ~~too much~~ and just the right amount. Also the program planned was in general awesome.

⊖ too long presentations (evening)  
more observing lessons

# Spain

What did we like the most: to work in international groups and to talk with people from other countries.

The sauna and swimming in the lake.

The ice hockey match.

The program ~~itself~~ in general.

Mike's talk.

What did we like the least:

- Some boring and not interesting talks such as eTwinning.

- As a Spanish boy, not to sleep too much on rest after the lunch.

Suggestions to improve the program:

- To visit more local ~~traditional~~ places  
main

# SPAIN - ~~XXXXXXXXXX~~ ~~XXXXXXXXXX~~

## Pros (liked)

- the speeches were really interesting
- the weather
- the food
- the activities done
- the ideas shared
- the freedom given to students
- the people
- The place
- the efficiency when preparing the computer, projector...

## Cons /

- We started the day really early - we could have started at 10 am for examples.
- Some activities were too long (for me)
- ~~My~~ - My tiredness because we had to wake up really early in the morning.
- Very little communication (in some groups.)
- More rest time ....

## ⊗ Suggestions:

- More interaction in the speeches/explanation with the public (as in math OER with the Kahoot app)
- Start the activities a little bit later (maybe 9-10 a.m)
- Do more activities like the Proakademia one
- Make different groups, separate them and work in different topics and then rotate them.

~~Try to~~
