## RESEARCHING OUR WASTE

NAME: Paula Suarez Garcia

GROUP: 4º B

Try to research honestly what you really do with these kind of waste at home, your school and your city.

<u>TYPE of WASTE</u>	<u>ORGANIC</u>	<u>PLASTIC/CANS</u>	<u>PAPER</u>	<u>GLASS</u>	<u>TECHONOLOGY</u>	<u>CLOTHES</u>
<u>WHERE</u>						
HOME	At home I have a trash bin where I take in the organic trash like leftover food, fruit rind...	At home I have a plastic bag where I <sup>through</sup> throw all the plastic trash and cans I use diarily.	At home I have a paper bag were I through paper trash like newspapers, magazines, cardboard...	At home I put all the glass like glass bottles together and then I through them to the green bin.	At home we call to a "spot clean" and they take away everything you have.	Sometimes, every season an organization bring a box where we bring clothes and they take away them
SCHOOL	At school organic trash is thrown to the grey bins and the litter bins.	At school plastic and cans are thrown to the litter bins, the same as the rest.	At school paper and cardboard are thrown to the same litterbins as the rest of the trash.	At school glass is thrown to the green bin we have outside it.	At school technology is taken to the "spot clean".	At school clothes are giving to boxes that go to poor organizations.
CITY	In the city I throw organic trash to the grey bin or the litterbins.	In the city I throw plastic trash to the yellow bin.	In the city I throw paper and cardboard to the blue bin.	In the city I throw glass to the green bin.	In the city I throw them to the "spot clean".	In the city I throw them to the clothes bin.

Thinking carefully about that first general clasification, would you find out others kind of waste? Some ideas:

- About ORGANIC waste... Do you take apart used oils?
- About PLASTIC/CANS waste... Do you take apart “food containers” and “chemical containers”?
- About DERIVATIVES OF PAPER... Do you take apart wipes, tampons, compresses, diapers...? What about corks and packaging?
- About GLASSES... Do you take apart bulbs?
- About TECHNOLOGICAL waste... Would you take apart different types?

<u>TYPE of WASTE</u>	<u>USED OIL</u>	<u>BATTERIES</u>	<u>MEDICINES</u>	<u>TOYS</u>	<u>FURNITURE</u>	<u>AIR CONDITIONER'S WATER</u>
<u>WHERE</u>						
HOME	At home I take them appart from the rest of the trash, in plastic bottles.	At home we take them appart from the rest of the trash.	At home we take them appart from the rest of the trash.	At home I take them together and I throw them to the same box as clothes.	At home we take them together and called to the "spot clean".	At home I use it to scrub the floor.
SCHOOL	At school they take it to the used oils bins.	At school they take them to batteries bins.	At school medicines aren't recycled.	At school toys aren't recycled.	At school furniture isn't recycled.	At school air conditioner's water isn't recycled.
CITY	In the city I take it to the used oils bins.	In the city I take them to the batteries bins.	In the city I take them to the pharmacy or the "SIGRE point".	In the city <del>At school</del> you take them to the same bins of the clothes.	In the city you call to the "spot clean" to take them away.	In the city air conditioner's water isn't recycled.
