- Vegan

Spain

Finland: Granny pad

Young people who want to be doctors go to old people houses to help them with their daily live. To live and to take care of them. They get practical experience. So it's for free.

Poland: Ecobottles chairs

They do chairs from plastic bottles

Italy: Fowe: creates compost centres in town. People bring organic waste to these centres and the compost is used by local farmers. Farmers and people exchange waste with organic products.

New Recycling Generation: it produces electrical appliances using second hand spare parts of other electrical appliances.

England

Not Expensive: recycling ^{of} paper and create new books.

Germany: many Ger

services for senior citizens. take care of them.

And for refugees. 5/10 € per hour.

For all the companies to employ people who need job.

For Spain: add paper cups.

ItE

FOWE → Food & Organic Waste Exchange (4)

NRG → New Recycling Generation (2)

① Centres → around city → organic waste → points to people

[Food exchanged for organic waste]

⇓
