RESEARCHING OUR WASTE

NAME: Santiago Maino Peinado GROUP: 1º Bachillerato A

Try to research honestly what you really do with these kind of waste at home, your school and your city.

<u>TYPE of WASTE</u>	<u>ORGANIC</u>	<u>PLASTIC/CANS</u>	<u>PAPER</u>	<u>GLASS</u>	<u>TECHONOLOGY</u>	<u>CLOTHES</u>
<u>WHERE</u>						
HOME	We have a rubbish bin, and we put there organic rubbish. Sometimes we throw it into general container, but other times we throw it into grey containers	For palstic or cans we have two plastic bags. Then we throw it in a yellow container.	For recycling paper we have paperboard bag and we put in used paper. Finally we throw the rubbish into blue containers.	We retain glass things on a table because they're not used a lot. So when there is many glass rubbish we finally throw in a green container.	I keep the broken gadgets until I can take them to the school or to the "Clean Point"	For recycling clothes we tear some pieces of them and we us it for cleaning the house. But if we don't use it for that we throw clothes into a charity container so they can be used again.
SCHOOL	There is not any kind of recycling bin for organic rubbish. It is thrown in a regular container	There is not any kind of recycling bin for plastic and cans. It is thrown in a regular container.	All the paper is recycled in blue paperboard containers.	Glass is rarely used so it is not recycled.	There are some appropriate bins in Head of Studies' office.	It is not recycled.
CITY	There is a Clean Point with an organic container not far away from my place.	There is a cans/plastic container very closely. There is another in the Clean Point.	There is a paper container very closely. There is another in the Clean Point.	There is a glass container very closely. There is another in the Clean Point.	There is a "Clean Point" far away from my place that has a container for this.	There is a charity container very near.

*Santiago Maimo***RECYCLING ACTIVITY**Dateline: Wednesday, October 7th**Thinking carefully about that first general clasification, would you find out others kind of waste? Some ideas:**

- About ORGANIC waste... Do you take apart used oils?
- About PLASTIC/CANs waste... Do you take apart “food containers” and “chemical containers”?
- About DERIVATIVES OF PAPER... Do you take apart wipes, tampons, compresses, diapers...? What about corks and packaging?
- About GLASSES... Do you take apart bulbs?
- About TECHNOLOGICAL waste... Would you take apart different types?

<u>TYPE of WASTE</u>						
<u>WHERE</u>	Oil	Batteries	Medicine	Bulbs	_____	_____
HOME	We keep used oil in a receptacle.	We keep used batteries in a little container and then we throw it in a special container.	The out of date medicine are thrown in a container inside pharmacies.	We don't recycle bulbs.		
SCHOOL	It's not recycled at school.	Last year they have been recycled in big bins.	They are not recycled at school.	They are not recycled at school.		
CITY	There is an oil container near school.	There are different recycling bins. There is one near school.	There are medicine containers in every pharmacy and in ambulatories.	They are recycled in special bins. There is one in Malaga.
