# OUR OPINION

Since antiquity it is considered that women weren't qualified for various fields that were considered exclusive to men. An example of this is the science.

However, today there are women who participate in this fields without fear.

*feminism*

# María Vallet

**She is an Canarian scientist. In 1974, she took his doctor's degree in Chemistry at the Complutense University of Madrid. She carried out an extensive research work, marked by a clear multidisciplinary approach, reflected in more than 550 scientific publications collected in the ISI web of knowledge, mostly in the areas of Chemistry and Materials Science.**
