

# **Analysis of the questionnaire results**

*By Afroditi Pappa, Konstantina Manthou & Mary Manthou*

## **1) Do students councils help protecting students' rights at school?**

- The majority of students (97%) believe that students councils help protecting students rights at school.

## **2) Do student councils help the students express their opinion about several matters of school life?**

- The majority of students (90%) agreed that students councils help the students express their opinion about several matters of school life.

## **3) Do you agree that student councils should have more power at school?**

- About 50% of the students agreed that student councils should have more power at school, while a 20% disagreed.

## **4) Are you satisfied by the results and the way that the students' councils worked last year?**

- The student councils should improve the way they work: Only 42% of the students are satisfied by the last year councils

**5) How would you feel if there was suddenly taken a decision about cancelling student's councils at schools?**

- The majority of students (84%) would feel angry, while only 16% wouldn't feel angry at all.

**6) How would you react if students councils wouldn't work in a right and fair way?**

- Most of the students (35%) voted for "I would ask for meeting with my classmates" and a small percentage (3%) voted for "I wouldn't care at all".

**7) Do the teachers of your school help you understand the value and the responsibilities of the students councils?**

- Most of the students (70%) think that teachers help us somewhat but another small percentage (6%) think that they don't help them at all.

**8) According to your experience for which of the following topics the students councils have responsibility?**

- The most popular answers were:
  - for students rights at school (71%)
  - for organization of school events (61%)
  - for students responsibilities at school (52%)
  - conversation among teachers and students for solving problems (52%)
- while the least popular answer was
  - for bad behavior of teachers or head teacher (16%).
