

Questionnaire answers from Denmark

Questions for the parents

	Parents: 109	YES	NO
1.	Are you aware of your child's participation in a two-year NordPlus project "Wonders in the country of science"?	102	7
2.	Have the themes and activities of the project had an impact on your child's interest in learning?	103	6

Questions for the involved teachers

1. What impact the project activities made on students?
 - a. The teachers feel that the pupils have gained a broader understanding of the Nordic countries and the fact that pupils in all countries are learning science like themselves.
2. What impact project had for your professional development?
 - a. The teachers have experienced that they, when looking at the ways of teachers in other countries, are able to take an outside look at their own techniques. They feel inspired by the classroom culture in the other countries.
3. What is your input into the project's website on Twinspace?
 - a. We have been posting pictures of lessons and experiments, and we have written how others could make the experiments with their pupils. Additionally, we have commented and liked different posts from other countries.

Questions for the involved pupils

1. What was the most interesting activity in NordPlus project “Wonders in the country of science”? (September- January)?
Why?
 - a. Many of our pupils mention the visit in October. They enjoyed the different experiments, they were shown. Some mention that it was fun to hear the different languages. The exchange of Christmas cards, between the schools is mentioned as fun and interesting.
2. What kind of new things have you learned about other countries?
 - a. The pupils mentioned many different things, among these were, the flags, the location of the countries on the map, how the schools work and of course the experiments.
