# Why refugees come here?

- The refugees prefer to take the Imbros-Limnos route because it is much safer due to the fact that the distance is much shorter, and they also have the lighthouse of Plaka (A village with a small port) as a guide (With permission of Turkey?).

# By what transport?

- 62 people arrived this morning (24/9/2019) at Plaka (A village with a small port) with a dangerous trip by 2 speed-boats.

## How many are there children and women's?

- There were 16 women and 20 children of Afghan origin.

# Who gathered them?

- The first boat was located by fishermen in one coast and the second one by executives of the Port Authority.

These things are probably belongings of refugees –found by port Authorities in coasts of Lemnos

# Where are they lead first ?

- ▶ They were first transported in the port of Myrina (The capital city of Limnos) only to be sent to Mytilini (Lesvos island) by the next upcoming ship.

## What about conditions?

- ▶ The conditions during their trip are too dangerous and expensive and there is a high number of people going to die if this does not stop.
- 

# Refugees in the Aegean Sea: the photo teaches us a lesson

# Why they don't have enough money to buy ticket to travel by ship?

- Due to the war conditions in the Middle East a lot of family fortunes have been destroyed.
- In some cases, the transportation of migrants from Limnos to Lesbos delays as the Port Authorities try to find the fund (money) for the tickets.
- In the between, people stay in an establishment totally inappropriate for humans.
