

In February I had the opportunity to go to Slovakia in Erasmus+ project. During one week, my colleges and I went to Humenné school. I met other country and other culture and I also met new people. I improved my English because it was the only way to communicate. Despite the cold I really enjoyed this experience. It will be forever in my memory and I hope to have this opportunity again.

Mafalda Azevedo

They were incredible experiences, I met new cultures, new friends and new languages. I participated in group 4 and I will never forget it. They were great days spent with our new colleagues. I hope this will repeat itself. By the way, I loved visiting new places like Kosice.

João Cruz

This was a good experience because I met new people, places and it was also my first flight. With this experience I improved my English a little and learned new things about the cultures and also the rights of children.

Clara Martins

It was a great experience to participate in this mobility. I made new friends, got to know new cultures and even improved my English.

My group helped me to overcome many of the difficulties I had in speaking English. It was a pity, because this mobility passed so quickly. I would repeat this mobility without thinking twice!

Vanessa Silva

I think in my team the cooperation and the collaboration was fantastic because we talked a lot and we enjoyed a lot the whole week. My favourite member of the team was Nina because she is very funny. I recommend this experience because we made new friends and we learned new things.
