

# MIDSUMMER'S EVE OR SAINT JOHN'S NIGHT

The 23th of June, people celebrate “Midsummer’s Eve”. This day is based on a traditional celebration for summer.

A lot of people make a fire, firecrackers..., to celebrate the summer, the shortest night of the year.

People gather with family or friends for dinner, before they go to the city centre or the beach.

After dinner, people go out and enjoy the firecrackers, fireworks, parties, live music, food all the night, and they have a good time.
