

HUMAN TOWERS

Humans towers are also called “castells” and they are a very popular tradition in Catalonia.

Building a human tower means climbing on each others’

shoulders, and try to keep balance so that the tower doesn’t fall down.

There are diferents types of towers . Example:

One tower of five people

One tower of nine people

Every 4 years there is one human towers competition in Tarragona (a city 100km south Barcelona).

QUESTIONS:

a) Write 3 names of human towers or “castells”
(1 point)

b) In what century were human towers “born”?
(1 point)

c) Are there any human tower groups (also called “colla”) outside Catalonia or Spain?
If so, give an example (1 point)
