

THE ENDLESS COLUMN

The Endless Column is a sculpture by Constantin Brancuși. It has a total height of 29,3m. The Endless Column symbolizes the infinite sacrifice of the Romanian soldiers. In 1918 Brancuși made some drafts of this form in oak. The Endless Column was assembled on 27 October 1938 by a friend of Constantin Brancuși. The restoration of this sculpture was between 1998 and 2000. The modules were made in the central workshop from Petroșani.
