**40**. BE CURIOUS

- **eTwinning** is by all means a great way to participate effectively in the life of a community (city, school, association) and youth of a country.
- **eTwinning** is a great tool for dealing with the issues of European citizenship, the **multiethnic and multicultural society, mutual understanding** to jointly build a network of **friendship** that get people closer and creates solidarity.

# "Welcoming", "citizenship", "belonging"

- three words that summarize three aspects of the character, the history, the educational path of communities and frame the design process and the making of the **macro-region (EUSAIR)**, launched in Brussels on November 18<sup>th</sup> 2014.

**" Planning capacity, governance and funding: the success of the Adriatic-Ionian Macro-Region totally depends on these factors"**

# LE MARCHE HANNO COSTRUITO LA 3° MACROREGIONE EUROPEA

The poster is for the 'youth games' held in Ancona, Italy, in 2014. It features a central logo with the words 'youth games' in a stylized font, surrounded by a circular arrangement of colorful human figures. To the right, the text 'PRONTI, PARTENZA...' is written in large, bold, green letters. Below this, the event is identified as 'ADRIATIC AND IONIAN MACROREGION ANCONA ITALY 2014' and the dates '6 | 8 giugno 2014'. A hand holding a handgun is shown firing several flags into the air, including the Italian flag and flags of other nations. The bottom right corner includes the text 'MACROREGIONE ADRIATICO IONICA' and the website 'www.aimyg2014.com'. The poster is set against a blue sky background with clouds.

***Maria Luigia Bizzarri, Brunella Lanciotti, Gianna Prapotnich, Carla Stella***

# Today's major issues in new frontier e-twinning

- NOT ONLY PEER E-TWINNING, BUT ALSO:
- E-twinning for and among learners with special needs
- E-twinning for and among disadvantaged learners, with special attention and care for immigrant families and children
- E-twinning FOR inclusion and equal opportunities for all
- E-twinning AGAINST poverty and digital divide
- E-twinning for e-tutoring, e-coaching, e-mentoring, etc.
- E-twinning for job shadowing
- Age e-twinning
- E-twinning for and among learners at different educational levels (e.g. primary <> lower secondary <> upper secondary <> university, etc.)
- E-twinning for learners in hospital
- E-twinning for flipping teaching to learning
- FROM A SHEER TECHNICAL STANDING POINT:
- E-twinning and m-twinning (mobile twinning)

# The «All for sports, sports for all» rational

*E-twinning for a three-sided educational frame:*

- *E-twinning for multi-sport practice:* major and popular sports are important, but the so called minor and alternative sports are likewise important;
- *E-twinning for multi-science education:* it would be idle to train young players in soccer techniques and tactics without educating them to the basics of nutrition, physiology, traumatology, etc.;
- *E-twinning for ethics-oriented sport practice:* training sport skills without developing sport ethics is useless and even dangerous for the modern European society, and it is against the very values that Europe preserves and protects.

# E-twinning to educate learners to ethics in sport practice

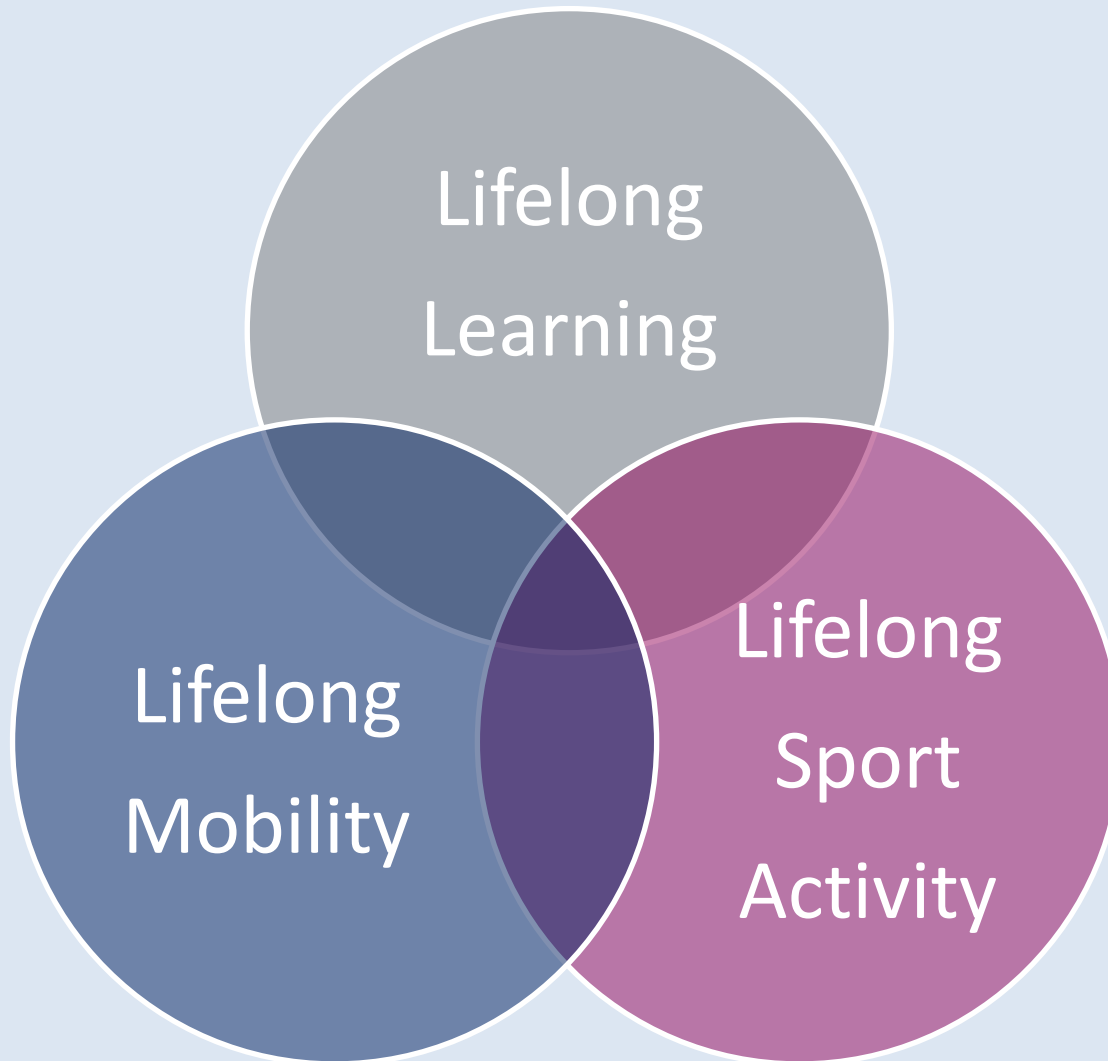

- *E-twinning to educate learners to prevent spectator violence*
- *E-twinning to educate learners to an anti-doping attitude in sport practice*
- *E-twinning to educate learners to “fair play” and “level playing field” in sport practice*
- *E-twinning to educate learners to the principle that “sport is for all”*
- *E-twinning to educate learners to the principle of «healthy competition for a healthy life in a healthy environment»*

# **The UE's rational behind healthy competition in sport practice**

- ❖ **The Directorate of Youth and Sport is part of the Directorate General of Education, Culture and Heritage, Youth and Sport of the Council of Europe.**
- ❖ **The Council is aware that sport has a distinctive role to play as a force for social integration, tolerance and understanding. It is open to all, regardless of age, language, religion, culture, or ability. It is the single most popular activity in modern society. Sport provides the opportunity to learn to play by commonly agreed rules, to behave admirably both in victory and in defeat and to develop, not only the physical being, but also social competences and ethical values. Its contribution to education is increasingly acknowledged. Sport has a key contribution to bring to the promotion of the core values of the Council of Europe: democracy, human rights and the rule of law.**
- ❖ **The Council of Europe acts against the negative aspects of sport - in particular violence and doping - through two Conventions: the European Convention on Spectator Violence and the Anti-Doping Convention.**

# **Sport practice is inclusive, especially for inactive individuals**
