Halyna Mohylak
Hi! I'm an English teacher from Ukraine, Lviv. I work at school which is specialized in English.
I like travelling, swimming and watching detectives. My hobby is ice skating! I love my family very much!

Hi, my name is Volodia. I am from Lviv, Ukraine. Here I have a lot of friends and I like playing with them. For example, I like playing football and table tennis. I'm cheerful and talkative. I use my mobile phone to chat with friends and call my parents.

Hi, my name is Lubomyr. I'm Ukrainian and I'm 13 years old. My favourite colour is blue. My favorite online games are clash of clans and contra strike. I like watching horrors. My hobby is painting. I like to draw, too. As for the phone I use it just to call my parents and friends.

addict, as you think. I only understand that our modern life depends on the Internet. Oh, I've forgotten.. My name is Mariam (stage for Ukrainian student) and I'm 15 years old. I go in for dancing and singing. I like writing stories and poems. I think it's ill. Good luck)

PHONES OF THE FUTURE

Hello, welcome to our blog. This is a project in which four schools from different countries are working together, this etwinning project about phones. We called this project "Call me maybe", we divided the project in four different groups with the objective of have different information about phones. Our part is centred in phones of the future, so we have to explain what we think about how phones will be in the future.

Creativity: Phones of the future

My phone of the future has a portable mirror with a hologram. The phone has a front camera, very good speaker, voice activation and above all a 3D hologram! The phone has also a mirror and it's available in many colors. I'm convinced that it will be a sensation in the future!

Today we wear accessories every day. How would you feel about them with a microphone, a screen and of course a button?
