

eTwinning Action English

IT'S PARTY TIME!!! Justin Bieber: Mistletoe LESSON ACTIVITES

GOAL: to have a lot of fun in the English classroom, to motivate students to learn new vocabulary and pronunciation, to develop students' creativity.

For the teacher: to learn about students' taste in music and use this for motivation in the future.

The lesson:

- 1) Hand out the Christmas vocabulary worksheet and let the students match the words and pictures. (for lower level classes I would allow the use of a dictionary- you can also show them where to find an on-line dictionary and teach them how to use it)
- 2) When they have finished ask them to say the words they have written and help with pronunciation and meanings if necessary.
- 3) Ask your students to discuss in pairs how these words are related to the Christmas time.
- 4) Ask for feedback and discuss in class the connection of the words in the worksheet and Christmas. In addition you can also ask them to say which words would they add to the list of Christmas words and ask for explanation. (In class you can make your students' Christmas vocabulary list like: Christmas tree: because we decorate it on Christmas eve etc.)
- 5) Give your students the Mistletoe lyrics worksheet and let them fill in the spaces with the missing words.
- 6) Check.
- 7) Let your students listen to the song again and ask them to sing. You, the teacher, should also sing along 😊
- 8) As a surprise you can let them watch the video our students made in the eTwinning project: ACTION ENGLISH and inspire them to record their own Mistletoe or some other video and learn English in the most amusing way: through singing and music.

Additional information:

- 1) explain your students what Lip sync is and ask them to choose their favourite song in English and learn the words by heart. (ask them to write the title of the songs so you can prepare the worksheets)
- 2) Record your students for an eTwinning project or any other school project or school event. Fun, motivation, motivating lesson material and knowledge guaranteed 😊

Enjoy the lesson and be inspired,
Alenka
