

Learning technology by distance

Classroom

What is it?

Google Classroom is a platform created by Google to manage teaching and learning.

Our Classroom

The Classroom is divided into 3 parts the stream , class work and people

What do we do with Classroom?

The screenshot shows a mobile interface for a Classroom page. At the top, there are three colored dots (black, yellow, grey) and the title "Projetos_Sensores" in green. Below this, there are two lists of projects, each starting with a book icon in a grey circle.

Projetos_Sensores

- Projeto com sensor LDR, buzina e LED**
Publicado a 17/01, 17:56
- 3. P1 - Sensor de toque - acende led**
Publicado a 30/10, 15:02

Projetos_Motors (ser...

- programa - motor Step com potenciometro**
Publicado a 2/03, 13:05  1
- Step motor com botões**
Publicado a 18/01, 18:55
- Step motor com potenciómetro**
Publicado a 18/01, 14:10
- Step Motor**
Publicado a 18/01, 13:25
- Projeto 1 - Servo Motors**
Publicado a 18/01, 11:18

Tinkercad

What is it?

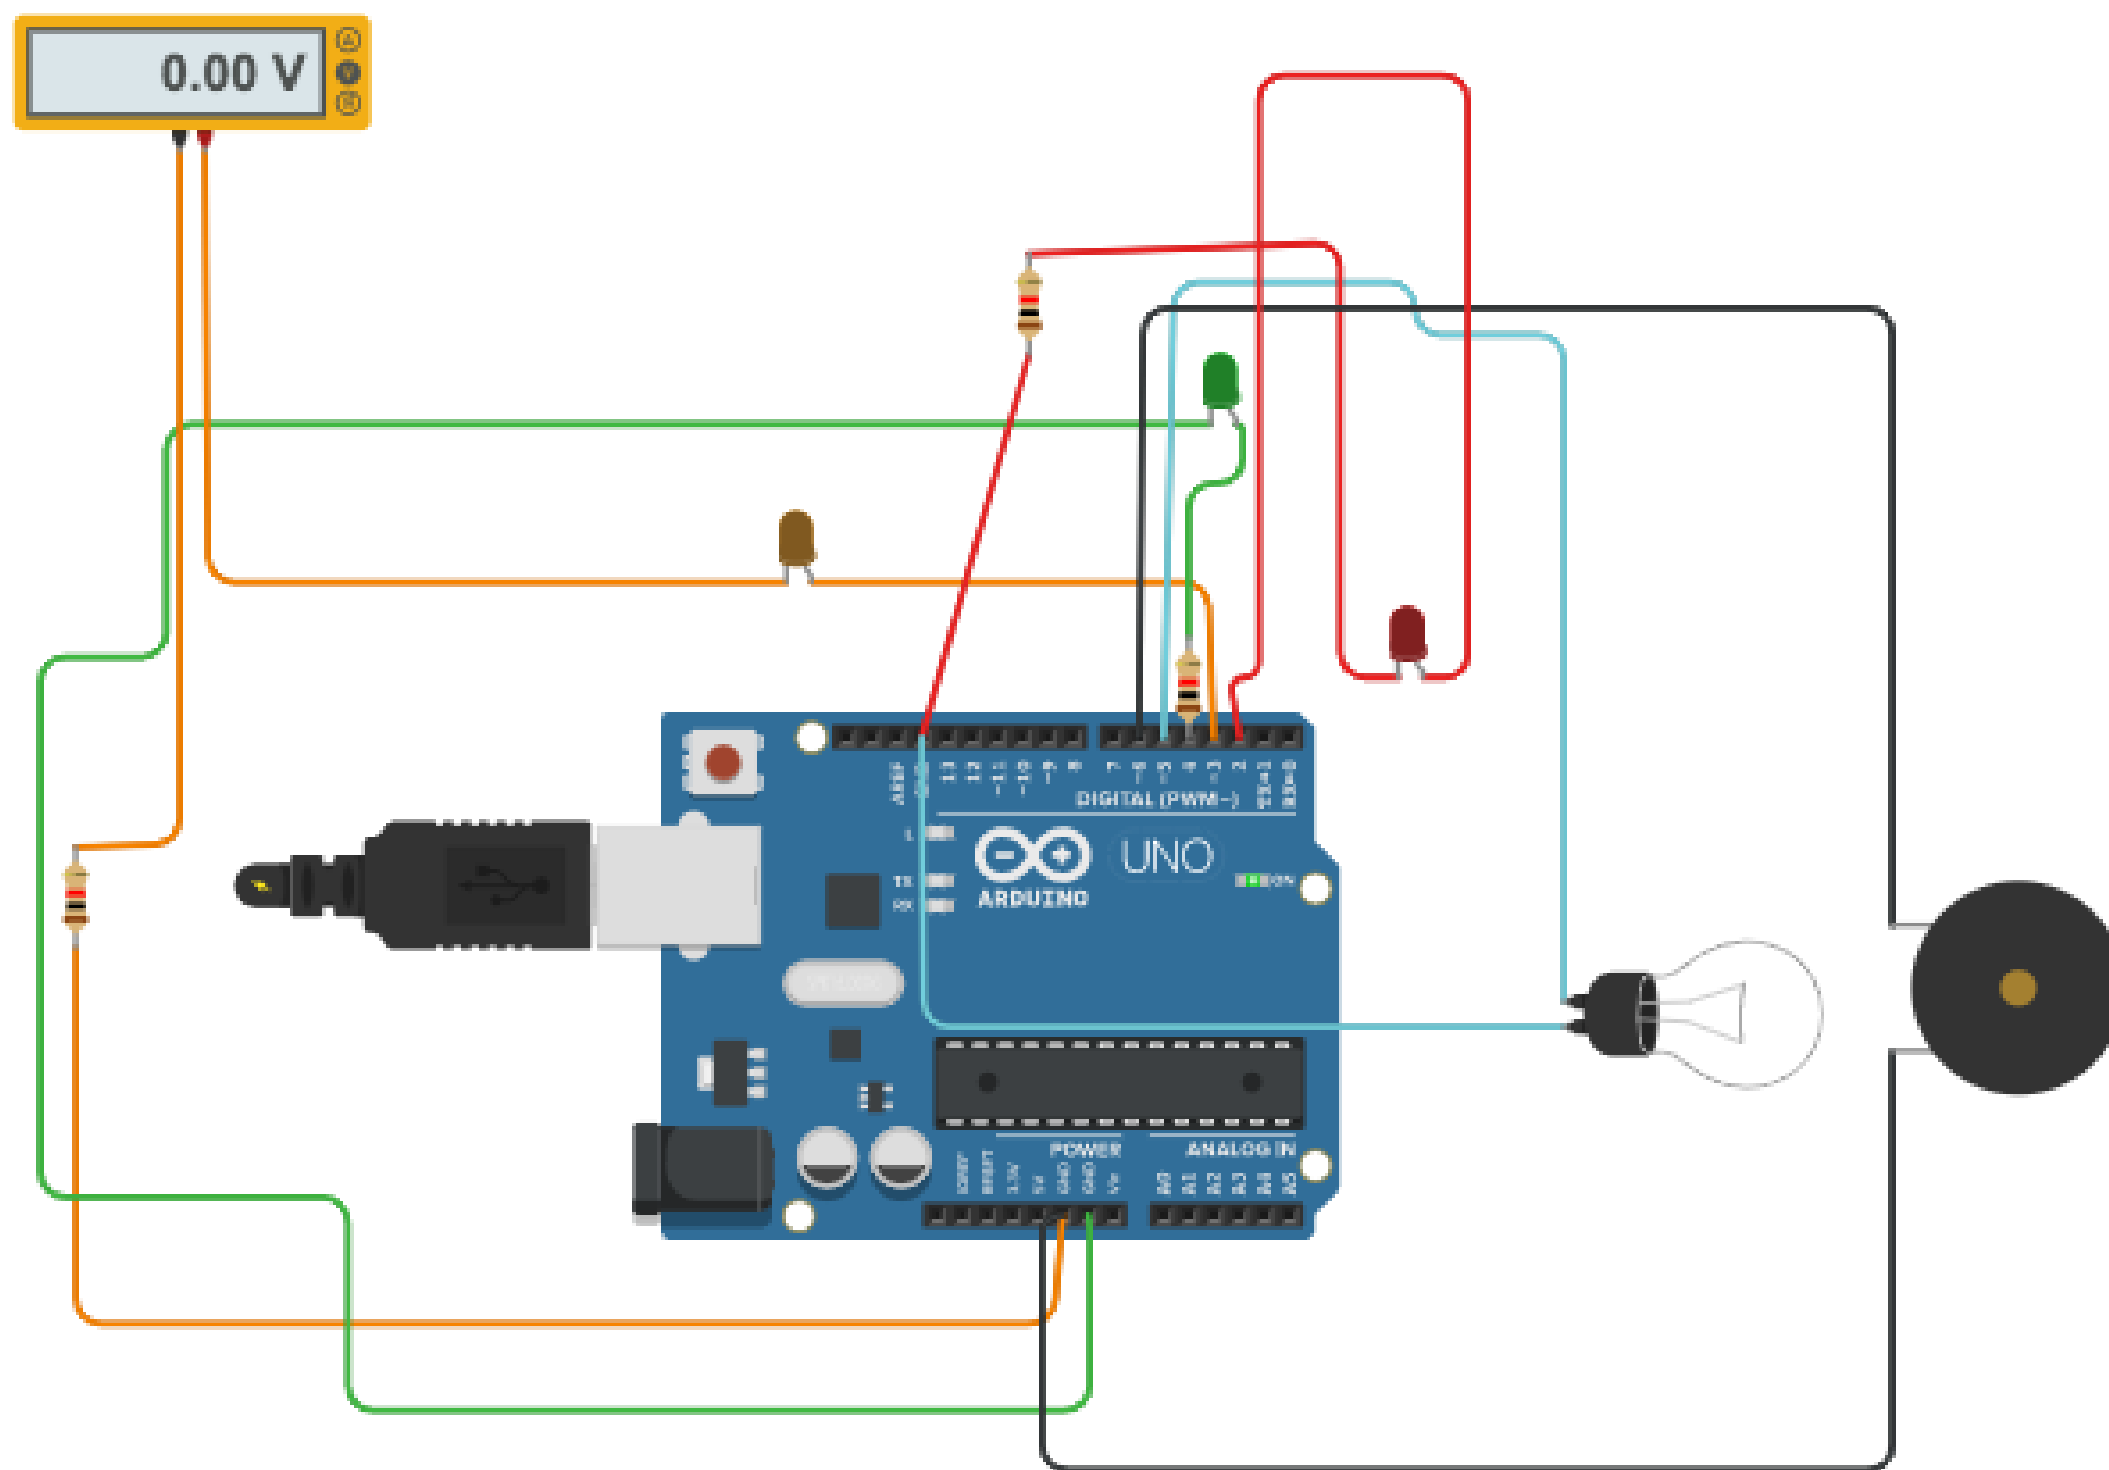

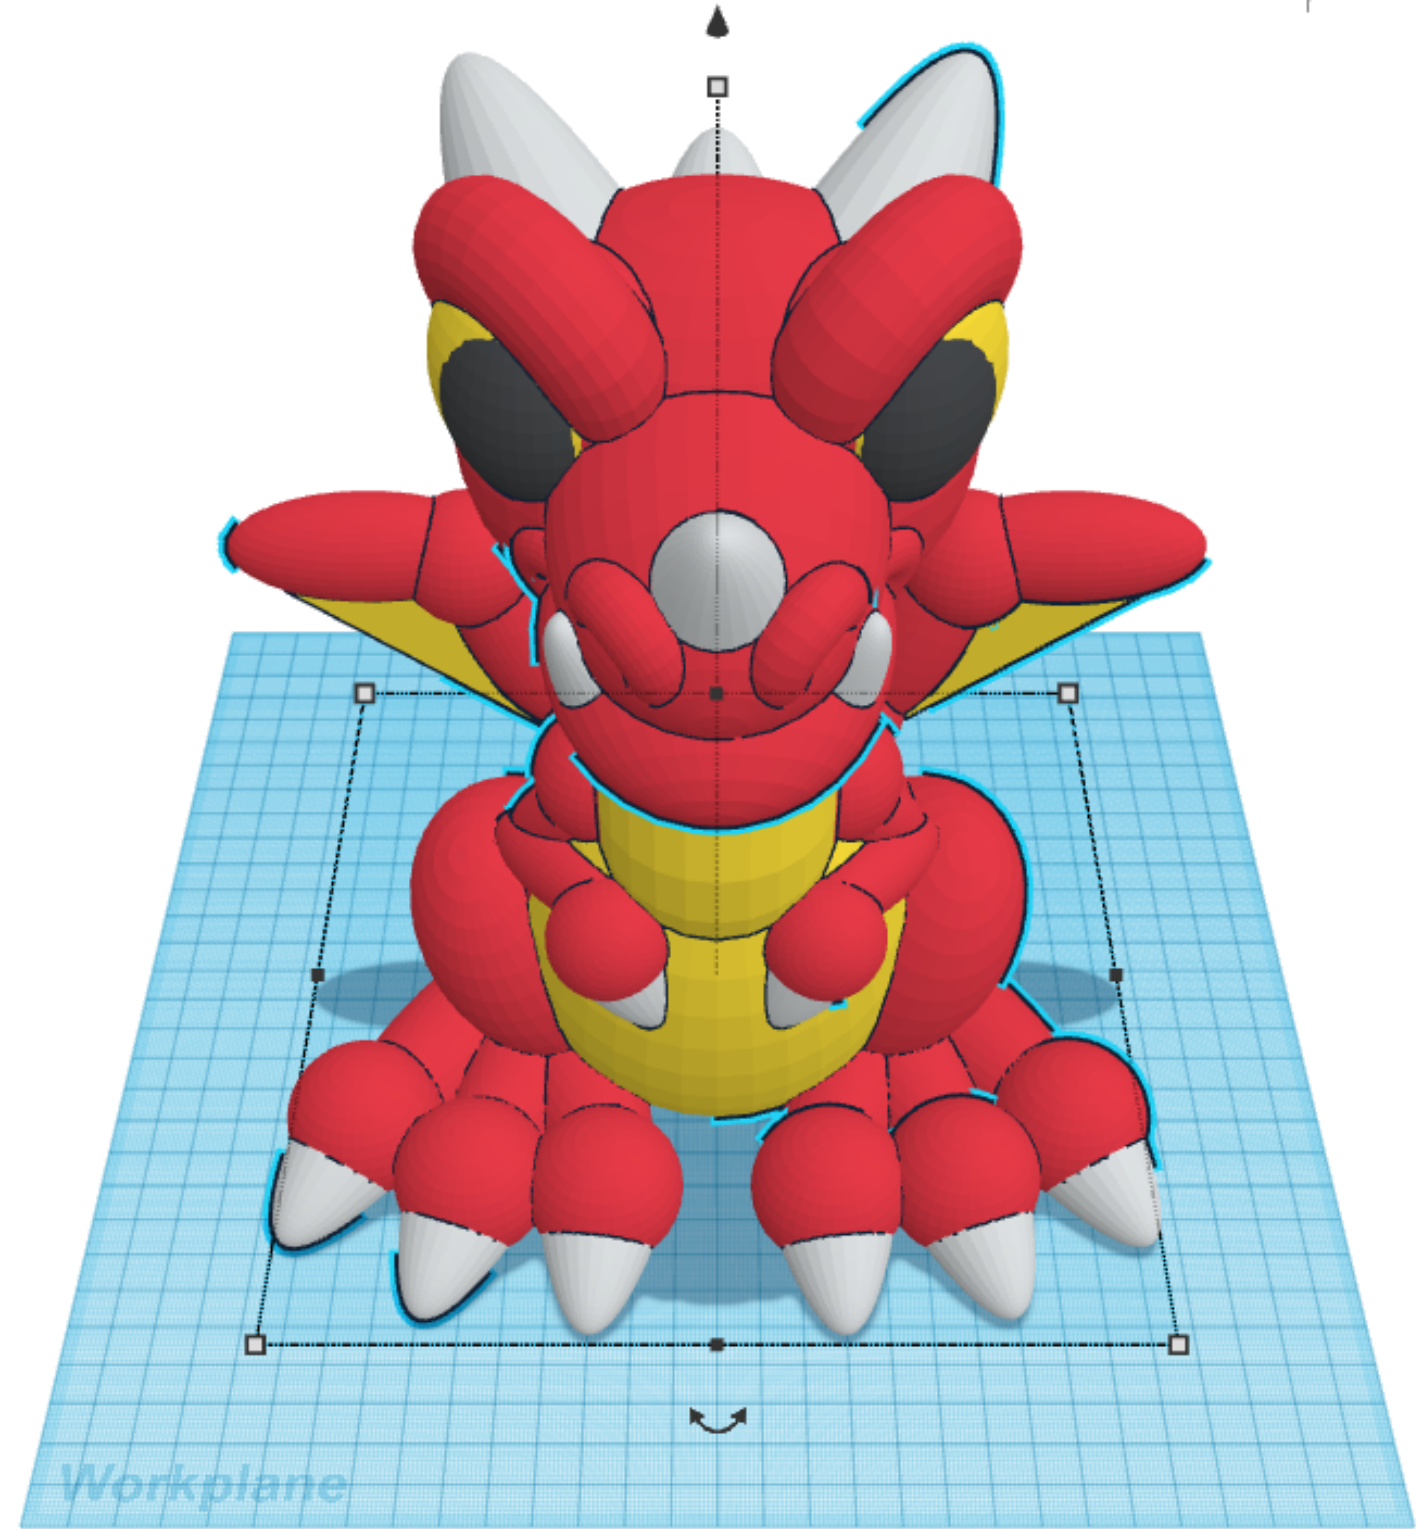

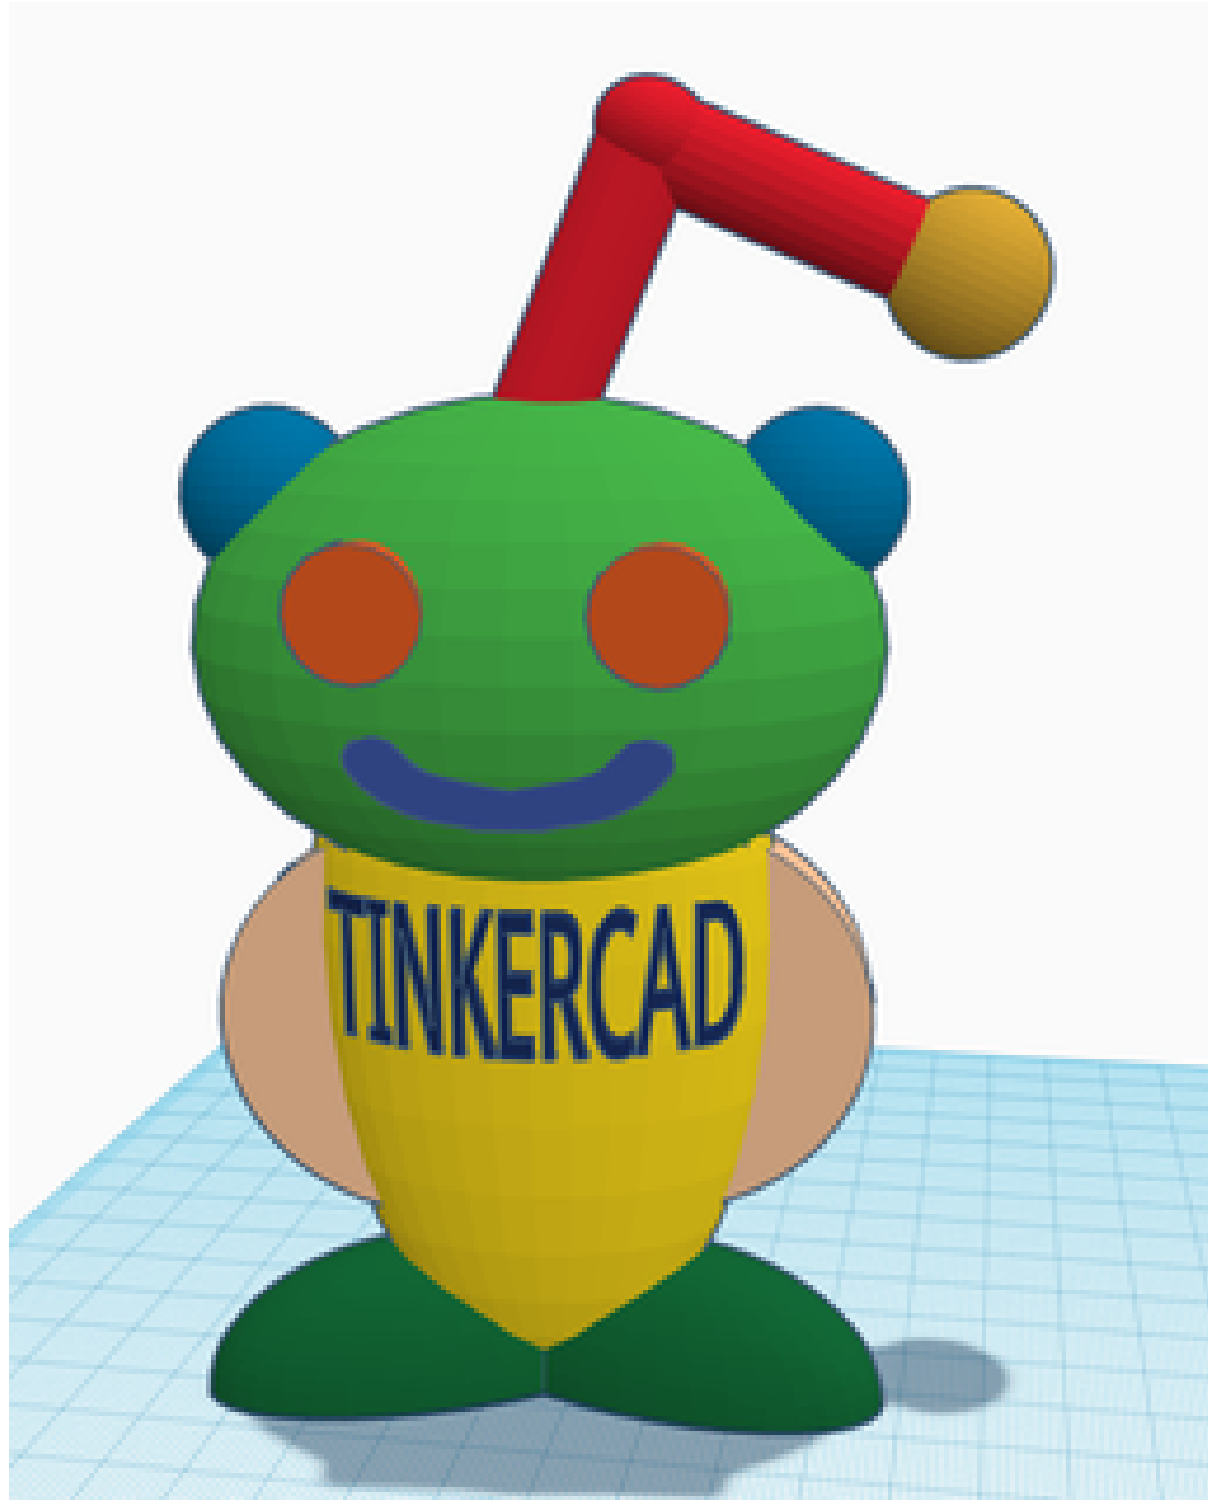

Tinkercad is a free online three-dimensional modeling program that runs in a web browser, known for its simplicity and ease of use.

What you can do with tinkercad?

With tinkercad you can
build your own circuit of
arduino and a lot of 3D
projects.

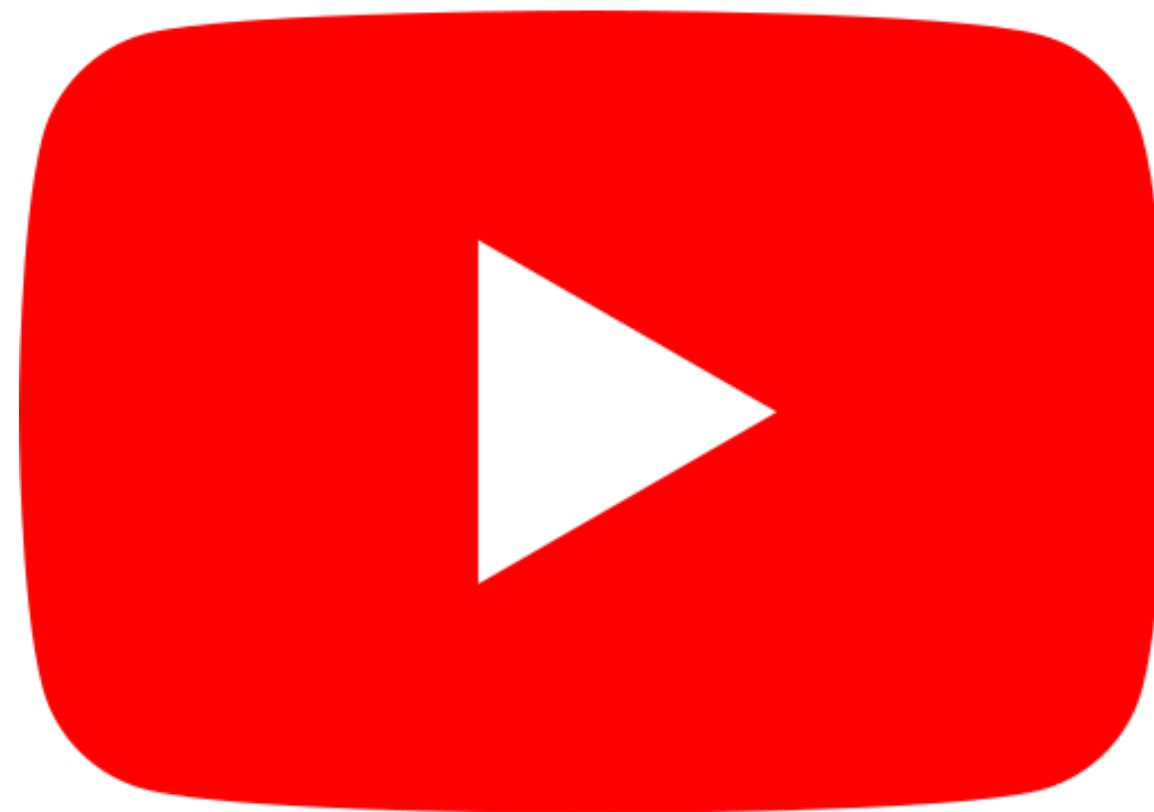

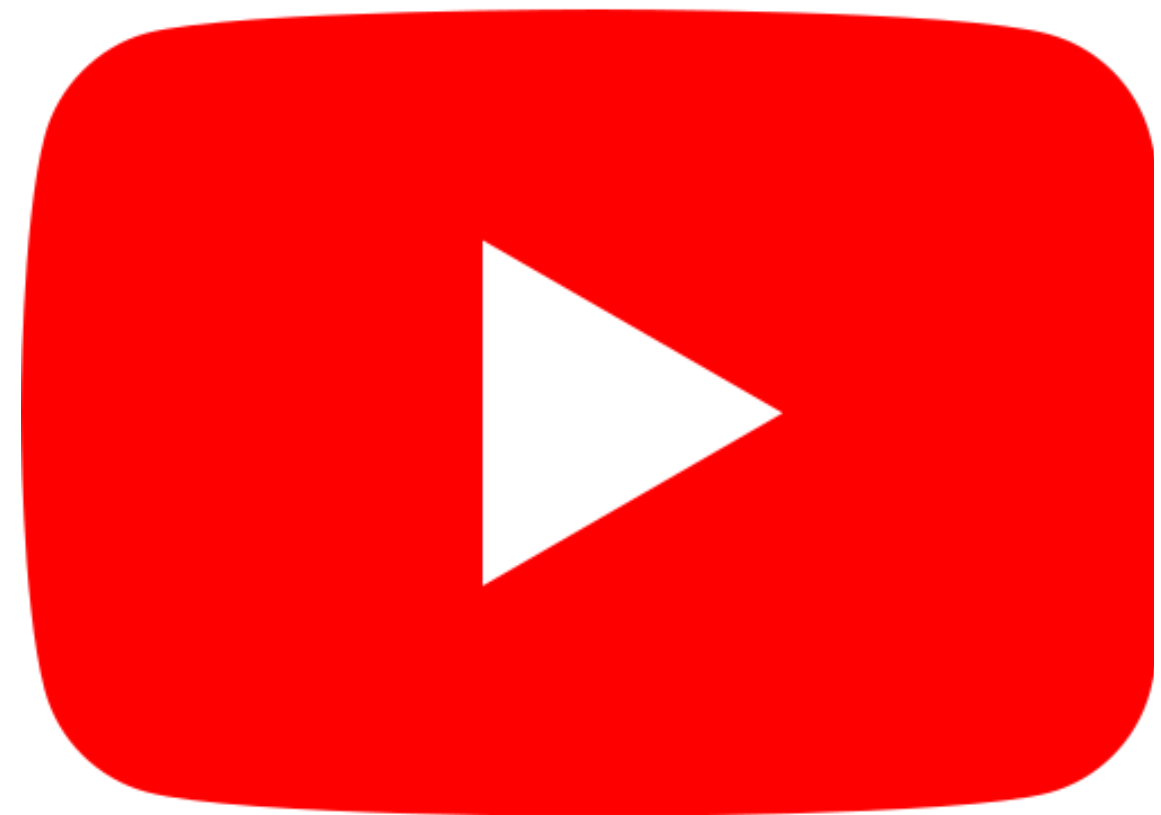

Youtube

What is it?

Youtube is a platform that
you have all the
information in videos
about everything.

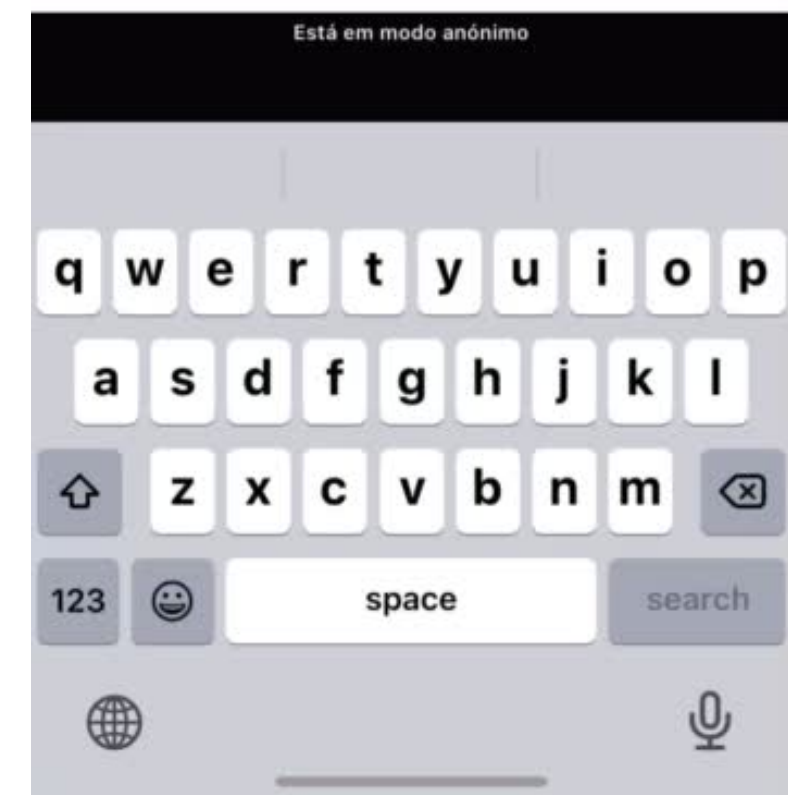

What do we do with Youtube?

We use youtube to watch videos on how to program the arduino, clarify some doubts.

Etwinning

eTwinning

What is it?

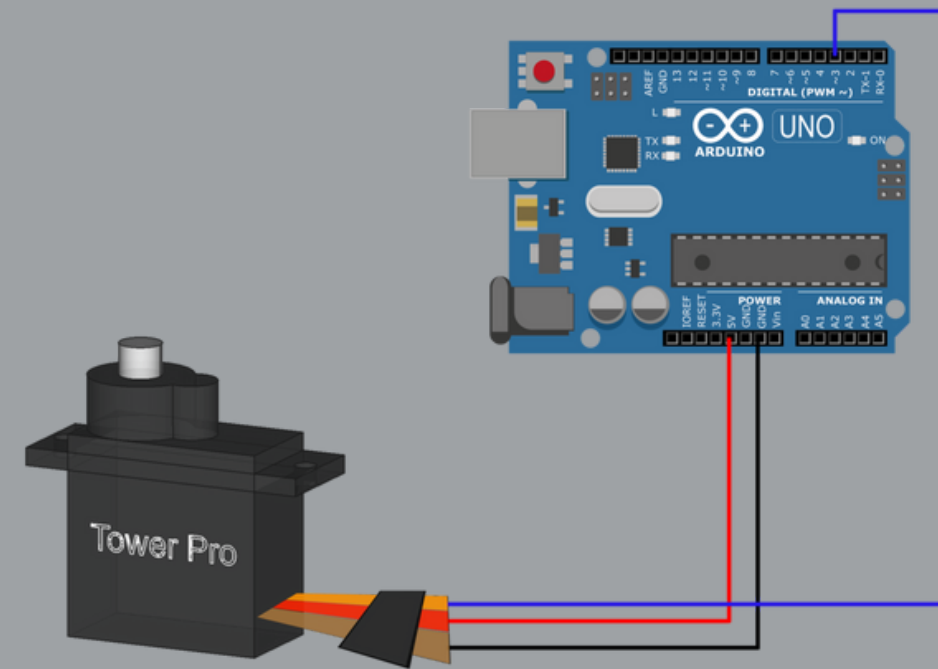

eTwinning is co-funded by Erasmus+, a European program in the field of Education, Training, Youth and Sport

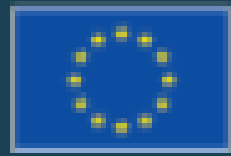

What do we do with Etwinning?

With Etwinning you can see
a lot of information about
arduino posted by our
teachers!

How do we get access to information about arduino?
