LET'S START!

1. Drag drop a box from the basic shape library.

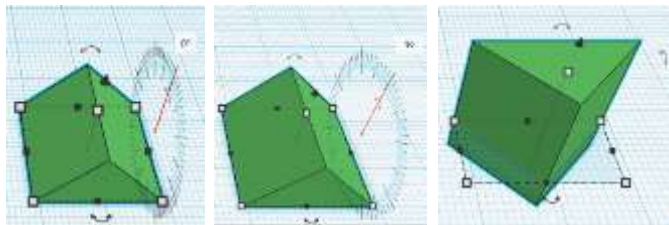

2. Click the on the box and set the dimension as below

3. Drag and drop a roof.

4. Click on it and use the arrow to turn it

5. But be careful, it pass under the work plate!

6. Click on it and press “d” key on the keyboard!

7. Click on it and set the dimension as below! And drag drop it to down of the box.

8. to align them, choose both of them, click  or "L" key, and click the point shown with the yellow circle.

9. to make them as a group, choose both of them and

click  or "CTRL+G". They will be one piece and one color.

10. copy and paste it and set the second shape's dimension as below.

11. copy and paste it again and set the third shape's dimension as below.

12. Choose the second one and change it to hole from here:

13. Drag drop the second one on the first one.

14. Chose both of them and pres "L" key, click on the point shown with yellow to align them

15. chose both of them and make them as a group them.

16. Drag drop the third one on it.

Be careful, there is no space here!

17. Chose both of them and pres "L" key, click on the point shown with yellow to align them.

18. chose both of them and make them as a group them.

After this step, you can customize your own book mark! Don't forget that all height should be 1mm!

19. Drag drop a heart.

20. Set it's demention as below

21. Turn it a little bit!

22. and replace it on the main shape! No Space between them!

23. chose both of them and make them as a group them.

24. drag drop a text shape from the basic shape library.

25. write your name in it!

25. Set it's dimation according to place where you want to put it!

26. Dont forget set the height of the text to 2 mm!

26. The last step is to make them as a group!

27. Or you can make it as a hole!
