

MAIN RESULTS OF THE SURVEYS. K202 GISWELM

1. TEACHERS

In the following graphs we can see the different teacher's methods to teach better

We see that 44% of teachers use the visits to the companies in Vet studies to teach better, 40% go to conferences and 28% carry out organization of workshops.

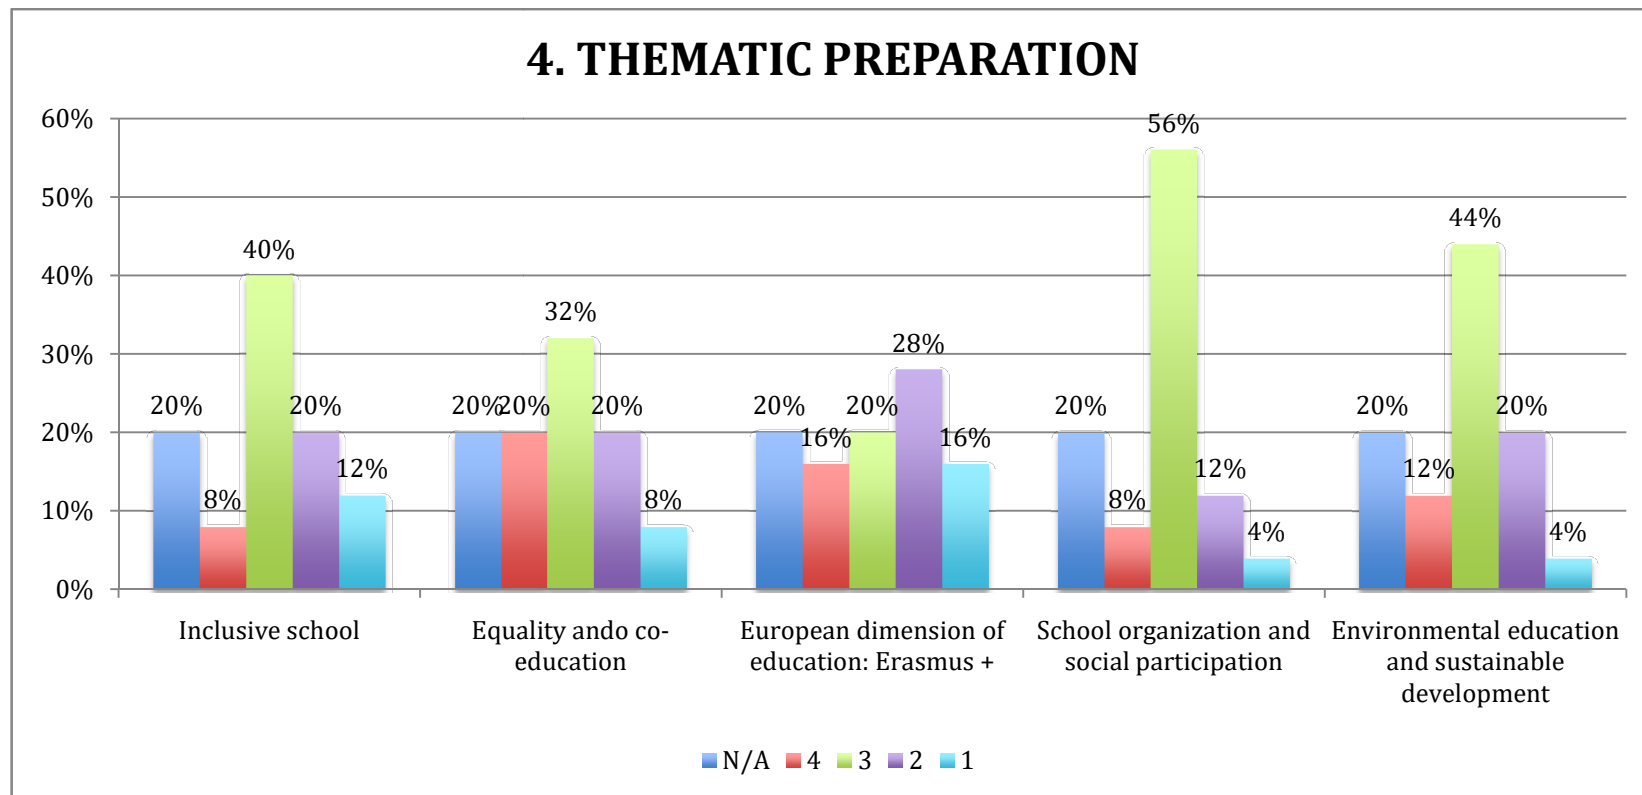

In the second graphic , we divide it into three sections.

The first one is about the content of the subject, as we see, 48% of teachers score with a 4 the preparation of the contents taught and 32% with 3 points.

In the second section, it is about the pedagogy of the subjects. As we see, 28% of teachers score with a 4 and 44% of teachers say: yes we use it.

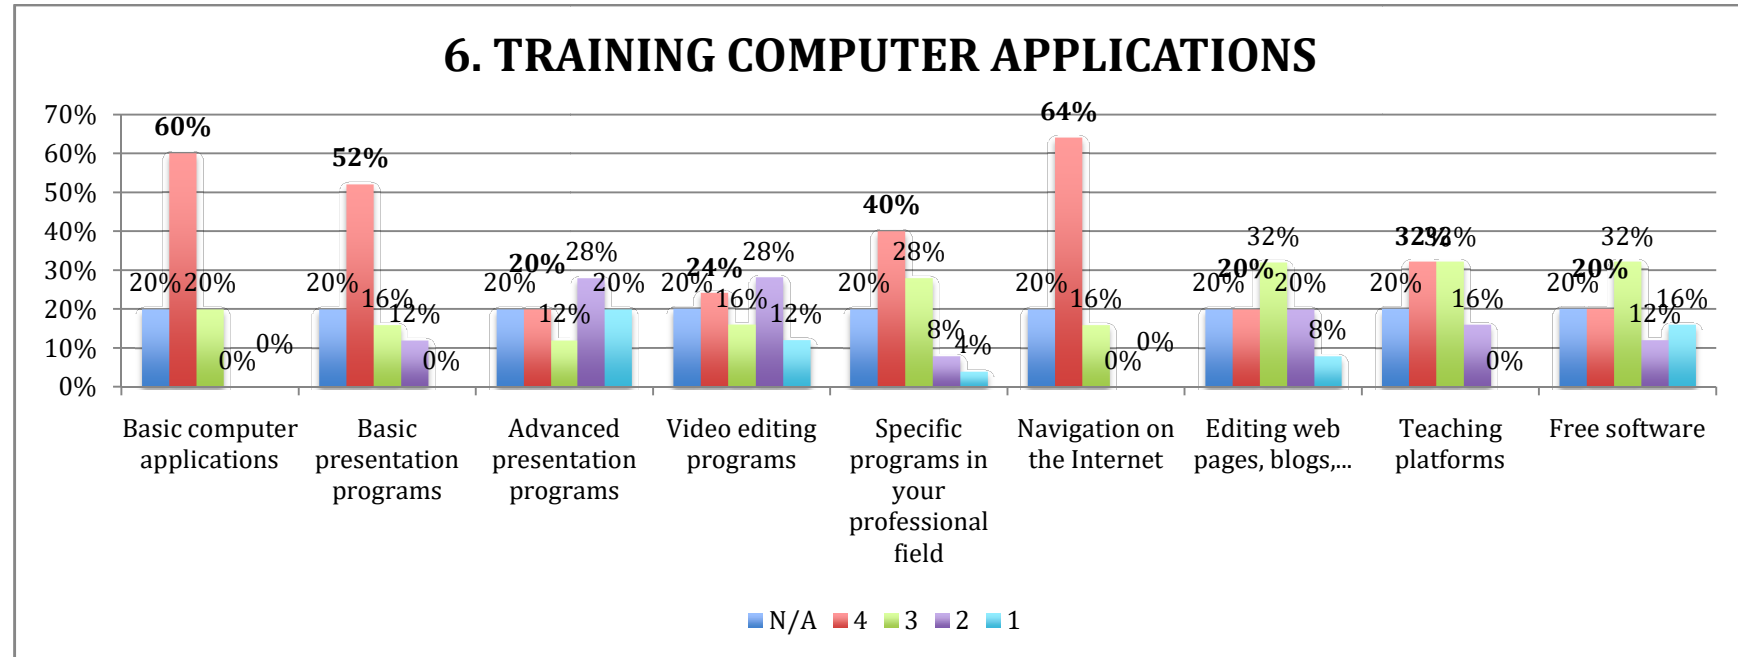

And the last section is about the practices in the subjects. As we see 70% of teachers score with a 4 or 3 this method.

This graph shows that teachers are more prepared in the following topics: school organization and social participation and environmental education and sustainable development.

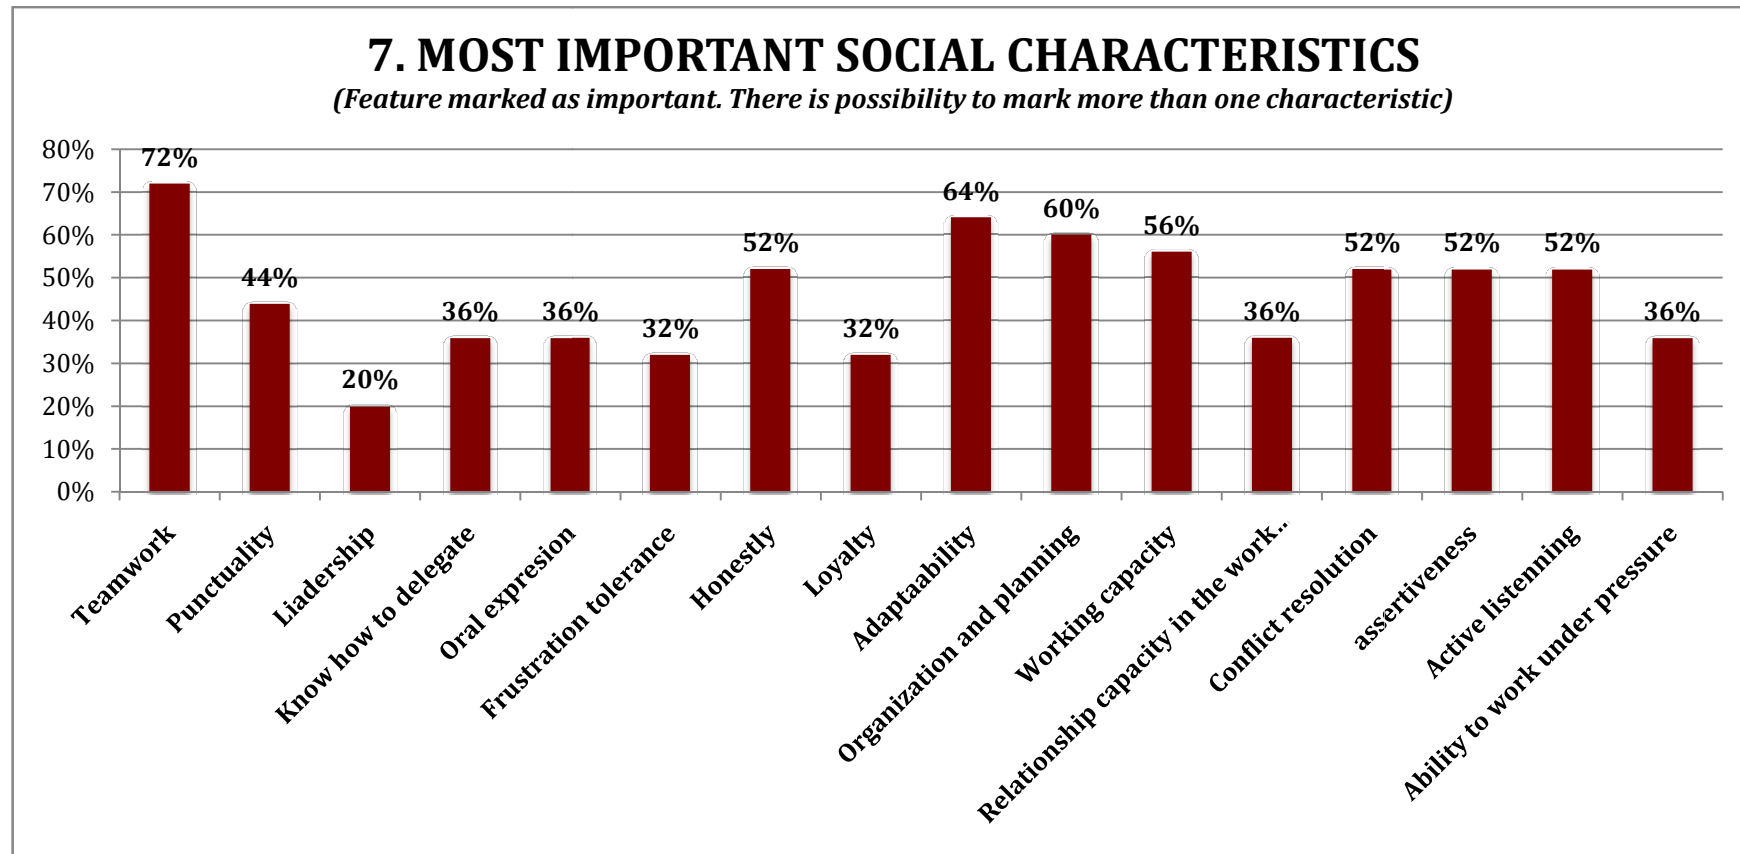

In the other subjects we see that if we add the teachers who score 3 and 4, only 50% say they have training on the following subjects: Inclusive school, equality and coeducation, European dimension of Education: Erasmus+.

The worst results are in Erasmus+

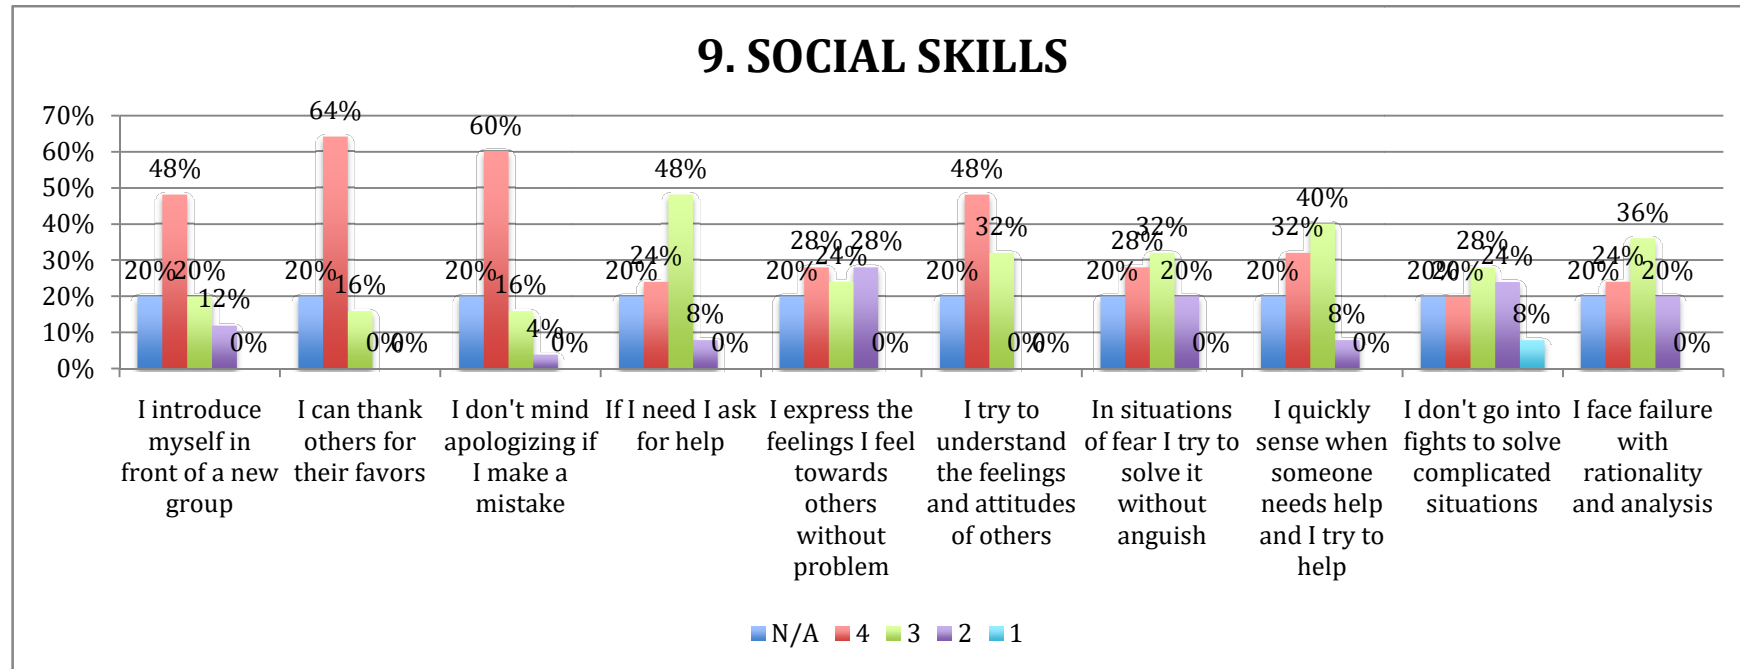

According to the 65% of teachers, they have more training in surfing in internet, followed by basic computer application with 60% and lastly with 52% basic presentation programs.

The lowest level of education is in specific programs like editing web or video and in their professional field
