

**THE WORLD IS
BIGGER THAN WHAT
YOU SEE ON
THE SCREEN**

Utopia School

Spanish team
November 2017, Turkey

Erasmus+

School Administration

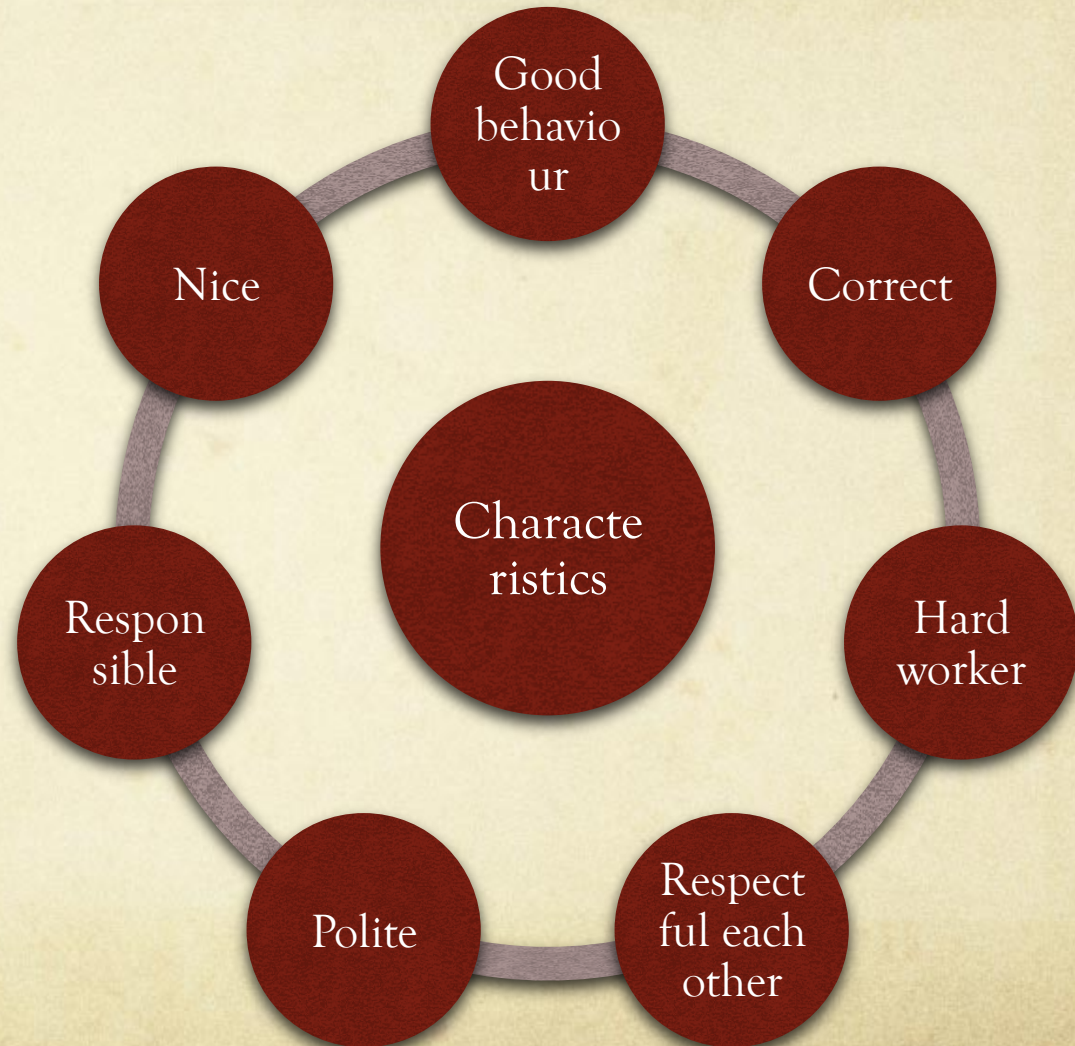

- They have to be qualified with a lot of skills and know some languages to communicate with other countries.
- They should have five years of experience being teacher, and then they have to be voted in an election.
- They must be hard worker, patient, friendly and nice.
- Their offices must be well located and with easy access to the students, parents and teachers.
- Collaboration between every part from educational system is needed.

Teachers

- They are needed to be specialist and control knowledge, that is the main part of teaching.
- They have to make the lesson more interactive and practical because it is the best way to internalize learnings.
- The evaluation must be different: no exams and more collaborative tasks.
- They should be nice with students and attend them correctly, so that students could tell them their problems and teachers could help them.

Students

- They have to get priorities and be aware that their aim is the acquisition of concepts that are essential in our society. Knowledge requires also learning a way of getting it, but this way is acquirable by the knowledge itself, not by pedagogical methods.

Parents

- Parents need specific formation of Education System: how it works, which are their aims, etc. Because lot of them do not still know why their children are coming to the school, which it is not a kindergarten.
- It is important that parents work as a team with teachers in their children education.

School Building

- The building should be bright, spacious and be build on one level.
- The walls could be white, light blue or light green.
- Gym, theatre, music classroom, arts classroom, swimming pool, nursing room.
- A supermarket or café that open in the break.
- Lockers for students.

Classrooms

- Not bigger than 15 - 20 students.
- Well equipped with technological and no technological means.
- Organised in different areas.
- Classrooms from 1st of Nursery to 2nd of baccalaureate (High School) .

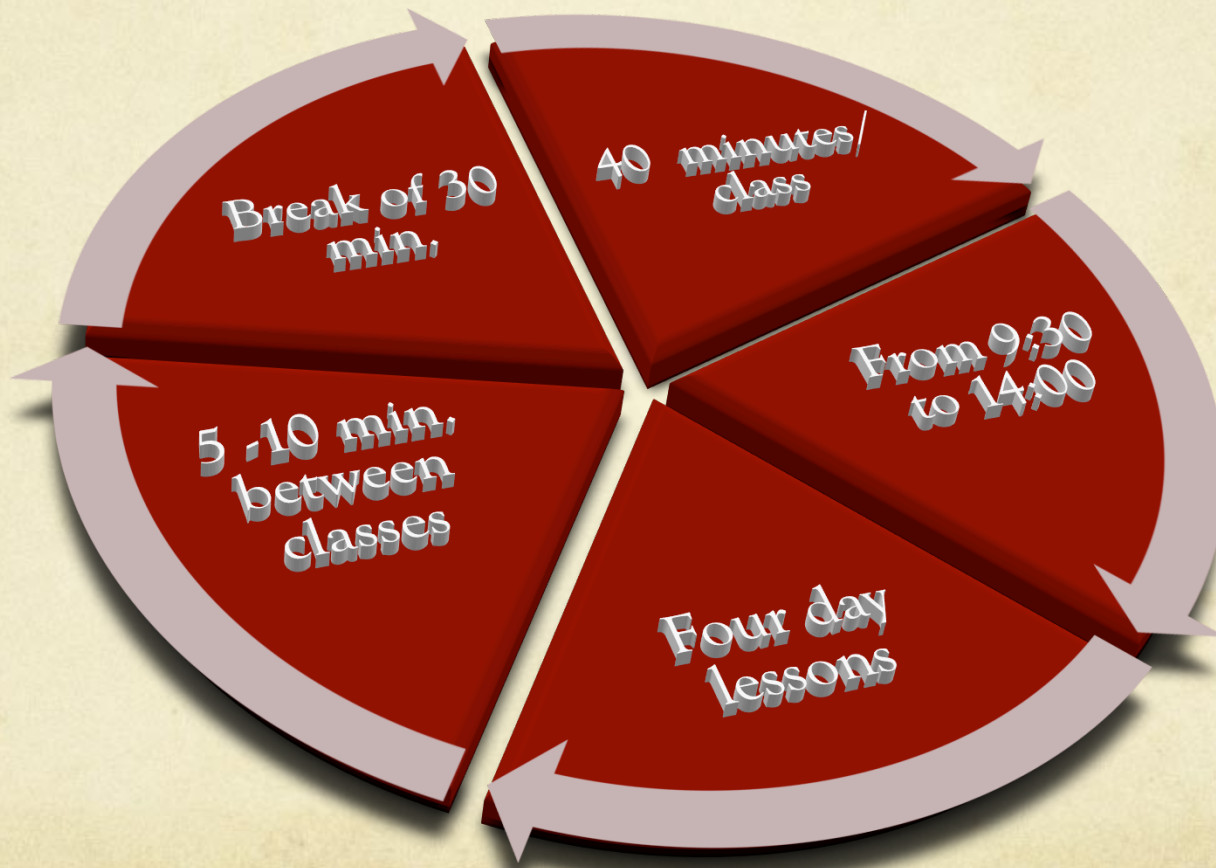

Garden

With different spots fields.

One garden for each educational stage.

Orchard to cultivate ecologic vegetables.

Lessons

After Lesson Activities

There have to be lots of clubs, like in USA schools:

Sports club

Science club

Newspaper

Theatre

Other could be:

Languages

Reinforcement classes

Music

A meeting place with our friends
