

Guidelines for choosing the final comic book text

1. From the 18th March until the 22nd of March each teacher must choose the text that will be in the comic book **with** their student captain.
2. We suggest the following approach for all partners.
3. Go to your shared document where all the text was proposed. All the shared document links can be found in the project's twinspace: (<https://twinspace.etwinning.net/76769/pages/page/476301>), the project's wix page: (<https://makingfriendsaroun.wixsite.com/etwinning/activity-5-language-board-game>) and they have also been emailed to everyone.
4. When you go to your shared document you will see something like what is shown below:

Australia -

America - Wow! The Madrid-Barajas Adolfo Suarez Airport looks so amazing!

Cyprus -Look. The aeroplane is going. We are in Spain. We're going to the zoo

India -

Japan - It's a plane./ Let's take a picture.

South Africa -

Spain- An airplane is landing.

what country it will come from, it would be great to meet other children.

Taiwan - It's great we landed at Madrid Airport in such a good weather.

5. Highlight the text you want for **each** picture as seen in the example below.

Australia -

America - Wow! The Madrid-Barajas Adolfo Suarez Airport looks so amazing!

Cyprus -Look. The aeroplane is going. We are in Spain. We're going to the zoo

India -

Japan - It's a plane./ Let's take a picture.

South Africa -

Spain- An airplane is landing.

what country it will come from, it would be great to meet other children.

Taiwan - It's great we landed at Madrid Airport in such a good weather.

6. After you have highlighted the text you want for the comic book, double check to see which countries you have highlighted. In the example above Taiwan has been highlighted.
7. Try to have a mix of text from different countries when selecting the text with your student captain. For example in drawing 1 the Taiwanese text is yellow but in drawing 2 the Spanish text is yellow and in drawing 3 the American text is in yellow and so on. By the end of the comic you should have text highlighted from as many countries as possible!
8. If you are up for a challenge you can look at all the text proposed for each picture and summarize all the text from all the partners to create some sentences or a small paragraph. Looking at the above text something like this could be created:

Girl outside the plane - Look an aeroplane is landing. It would be great to meet other children.

Boy outside the plane – Let's take a picture.

Speech balloon from inside the plane - The Madrid-Barajas Adolfo Suarez Airport looks so amazing! We will go to the zoo after we land. The weather looks absolutely amazing! I think we will land in Madrid Airport in such good weather.

9. Remember that you can contact Nick, Camilo or Angel for any questions you may have!
