

EVALUATION OF THE FIRST ACTIVITY

“Guess Who I Am“

ROMANIA

Students have made a photo in their favourite activity and they have written short descriptions of themselves. Students have given a hint or a little detail to find out in the picture who they are.

The teachers have put all children's photos in the section "Images" and all children's descriptions in the section "Files" on Twinspace where all other teachers together with their students could see them.

- The task was to identify all children by their name according to their short description about them through that clue given in each description to identify all the children correctly.

After successful identification we had to complete the table with names and numbers of all students from one country.

We received pictures and descriptions from Slovakia, Turkey and Poland.

I assess this activity of our project as:

- ✓ Interesting
- ✓ Motivational
- ✓ Empathetic
- ✓ Successful
- ✓ Supportive on English learning in order to develop competences and consolidate skills such as Vocabulary Practice, Reading Comprehension, Grammatical Accuracy, Creative Writing- Overall Written Production and correspondance Creative Writing - Information Exchange.
