- ❖ Thursday
- ❖ Friday

Monday

- Logo Competition: The winner is Turkey
- Walk through the school
- Project work: work organisation (5 transnational groups of students)
- Reception in e Twinning for students and teachers

- The first meeting of the Erasmus project „present for the future“ started on 12th February and ended on the 18th
- We received 40 guests from France, Rumania, Poland and Turkey
- Our 12th year students participated in this project
- We analysed three conservation areas, e.g. Biesterberg, focusing on different areas
- They informed themselves about specific species of plants and animals, laws, financing, tourism, etc.
- Experts joined us for our excursions
- We were supported by Mr Füller from the „Biological station Lippe“, who investigated the conversation

➤ Presentation of the German students

➤ Logos from the countrys

➤ Turkish delegation won the competition

➤ Visited the Biesterberg

Tuesday

- ▶ Visited the integral natural reserve „Biesterberg“ with Mr. Füller
- ▶ Placed the results about Biesterberg in e Twinning

- Experts joined us for our excursions
- We were supported by Mr Füller from the „Biological station Lippe“, who investigated the conversation at area Biesterberg
- The problem of the changing area, which was caused by the closing of the military zone, was processed

➤ The Biesterberg

Wednesday

- ▶ Project Work – visited the Alwetterzoo and the city of Münster
- ▶ While we were introduced to the zoo Münster where Biocity is based, we got know about the international protection of endangered species.

➤ The Group in the Allwetterzoo Münster

Thursday

- ▶ Project Work – visited the museum about natural reserve „Senne“
- ▶ Visited the natural reserve „Senne Moosheide“
- ▶ School’s supporting association of the national park Senne Eggegebirge supported us with a very interesting excursion through the conservation Senne Moosheide, which was led by Ms Kurz. Our guests could explore the unique plants and animals, as well as the natural fount of the Ems
- ▶ We were also supported by Prof Trillmich and by Ms Voidenberg. A visit to the Heidschnucken-sheepfarm „Senne“ completed our excursion with a picnic
- ▶ The natural history museum in Paderborn was nice enough to let us use their rooms for our meet and greet.
- ▶ Mr Hennebrüder from NABU-Lemgo, thought us something about the prevention of the floods and species of the conservation area „Bega“

➤ The Turkish teacher in the Senne

➤ Presentation about the Senne

➤ The group on the field at the Senne

Friday

- ▶ Reception at the mayor's office in Lemgo
- ▶ Project work – visited the natural reserve „Bega“ with Mr. Hennebrüder
- ▶ Final dinner (canteen Hanse Berufskolleg)

- ▶ The mayor of the city Lemgo Dr. Austermann greeted the international delegation in the assembly hall of the townhall. He explained the conservation project of the renaturation in the Bega area. In addition, he talked about the challenges involved in.
- ▶ At the end of the week, we finished our project with a harmonious with food and music.
- ▶ Working in small groups during the course of our project, we got to know each other very well.
- ▶ The results of this week will be uploaded on our webpage „E-Twinnig“
- ▶ We all look forward to our next meeting, wich will take place in Poland (Tschenstochau)
