Meaning of name “Siemianowice Śląskie”

There were three brothers - Siemion, Michał i Maciej.
From their names were created villages - Siemianowice,
Michałkowice and Maciejkowice. Then, our town was
formed with five districts.

The most important places in our town

Pszczelnik - recreation centre in centre (a swimming pool, a rink in winter, a playground, tennis courts and sports hall).

Tradition Park - cultural
centre in Michałkowice.
There are a lot of
organised events.

SCK – cultural
centre in Bytków.
There are
performances and
competitions.

Interview with our president of Siemianowice Śląskie

1. What are you most proud of in our city?

I am most proud of the fact that in a few years in cooperation with the inhabitants, in particular with young people, seniors and entrepreneurs, we were able to completely change the character and image of Siemianowice Śląskie for which this fashion is now real and not PRL. Thanks to many consultations and translating them into realistically created city budgets in every district, among others in the New World, Hugo, residents have created conditions for going outside, spending time actively, playing sports or relaxing. Another example can be sports facilities that were created thanks to civic and youth initiatives such as pumptrack, skatepark or Street workout.

2. What do you think about our school?

Śniadek has always been one of the so-called iconic Siemianowice high schools. In my time, which is a good few years ago, he was known for his great education in mathematics, mainly due to the case of former director Marian Sieniewski. Today Śniadek is coming back to its glory days thanks to innovative fields of education and the fact that it attracts students open to a different approach to education, e.g. through close cooperation with universities, which my generation could only dream of before. I believe that Śniadek will be at the forefront of the so-called educational magnets, which will attract young people from neighboring cities, including Katowice.

3. What would you recommend to foreigners in our city?

I would definitely recommend what it did and still makes an impression on existing guests, for whom the great "WOW" is our NATURE, integrated into the city full of architectural colors. On the one hand, we have a peculiar Old Town in the Center with a beautiful Donnersmarck Park, renovated Palace of Inspiration and a historic granary full of the function of a city museum, on the other hand, we have a beautiful and modern Bynik with green oases such as a lynx pond, a parish park or a social garden. The icing on the cake is the whole complex of golf courses, eyelash pond, bazaar and one of the oldest hunting ranges in Poland. This is what makes the best impression on foreigners for permanent use by historical objects such as Michałkowicki Castle and the Fitzner's villa.

The image features a bold, minimalist design. A central white rectangular box is positioned horizontally, containing the text "OUR SCHOOL" in a large, black, sans-serif font. The background is composed of solid yellow and blue blocks. A vertical black line runs down the center of the image, passing through the white box. The yellow blocks are on the left and right sides, while the blue blocks are at the top and bottom.
