# ESC – a Global Challenge

## What was the least interesting activity?

I think it was the google drive and e-twinning LLT activity. I found it interesting, but some students wouldn't stop talking and it was hard to understand what the teachers wanted to teach us. I can't think of a non-interesting activity.

Google drive activity

the competition between students

laundry products comparison

showing us traditional dances

The game we played with apples.

The typical dance

twinspace formation

presentation

Workshops

The school activities

The Least interesting activity was the Origami one

Every activity was interesting.

playing games in the school

Working with twinspace.

The school programmes

going to the thermal spa

doing the plans for the film

Bathing

- That projects are an amazing opportunity to improve our experiences. I would love repeat that experience!
- Makes it easy for us to be closer with the other countries
- It's good for friendship
- I'm so happy to be a part of this project.
- This kind of project are fundamental to our lives, specially if we want to go further in our career paths. If we have this huge and indescribable opportunity, we can't let it go! No words can explain the happiness and the benefits it can give us! If someone ask me to apply again to this kind of projects, I would do it for sure!
- I love this kind of projects because this way I can get to know other cultures and understand them better. I've realised people are wonderful no matter where you come from (I already knew this, but this kind of experiences make me prove these kind of facts) i would love to see these people again, and I am more aware of the damage humanity is doing to the Earth, so Im willing to waste lest resources
- this kind of project are really amazing because the experiences can change our life and just if you went you can understand what is this of meet new people and live for a week in other country without your family....
- ...
- It was the best experience
