 City trip
 Last night party
 City Trip
 last night
 Romania trip
 To be honest the party that we had before the day we went home was joyful.
 Megamall visits
 the pollution when we make a poster

What do you think could be improved in this kind of activities?

Having fun
 I think could be improved this activities is to make activities that moves ,make laugh and is convivial
 the players control
 The attention/concentration of the others students when we have to listen to somebody/something (a video,...)
 more trips
 The most important think that could be improved in this kind of activities is the comunication between teachers and students and the organization
 To know how making films with pictures
 The communication with the boys foreign
 I think that the organisation could had been better and that you should choose teens that are able to communicate in english with others teens.
 nothing in my opinion is already complete from every point of view
 Planning , Organization
 In this age we want to have fun not learn.
 I think choosing games more dynamic, would be better choice!
 I think teachers should help more the students because in same cases they only supervise what students do and they don't take part
 all is good
 This activities could be funniest
