

# ~ Copyright ~

Copyright

Copyright is when someone puts something they made (for example picture) on the internet. Others can use it, but they have to tell who's the owner.

When you find something on the internet you would like to use, you have to write the autor, if you can use it.

If you want to copy some text you found on wikipedia or some page like that, you have to write it in your own words, it's not infringing autor's rights and it will be better for understanding.
